

Surrogate Mother

Michael J. Sandel

Surrogate Mother:

Labor of Love Heather Jacobson, 2016-03-15 While the practice of surrogacy has existed for millennia new fertility technologies have allowed women to act as gestational surrogates carrying children that are not genetically their own While some women volunteer to act as gestational surrogates for friends or family members others get paid for performing this service The first ethnographic study of gestational surrogacy in the United States *Labor of Love* examines the conflicted attitudes that emerge when the ostensibly priceless act of bringing a child into the world becomes a paid occupation Heather Jacobson interviews not only surrogate mothers but also their family members the intended parents who employ surrogates and the various professionals who work to facilitate the process Seeking to understand how gestational surrogates perceive their vocation she discovers that many regard surrogacy as a calling but are reluctant to describe it as a job In the process Jacobson dissects the complex set of social attitudes underlying this resistance toward conceiving of pregnancy as a form of employment Through her extensive field research Jacobson gives readers a firsthand look at the many challenges faced by gestational surrogates who deal with complicated medical procedures delicate work family balances and tricky social dynamics Yet *Labor of Love* also demonstrates the extent to which advances in reproductive technology are affecting all Americans changing how we think about maternity family and the labor involved in giving birth For more visit <http://www.heatherjacobsononline.com>

Surrogate Motherhood Martha A. Field, 2009-07-01 With an Expanded Appendix on the Current Legal Status of Surrogacy Arrangements A practice known since Biblical times surrogate motherhood has only recently leaped to prominence as a way of providing babies for childless couples and leaped to notoriety through the dramatic case of Baby M Contract surrogacy is officially little more than ten years old but by 1986 five hundred babies had been born to mothers who gave them up to sperm donor fathers for a fee and the practice is growing rapidly Martha Field examines the myriad legal complexities that today enmesh surrogate motherhood and also looks beyond existing legal rules to ask what society wants from surrogacy A man's desire to be a biological parent even when his wife is infertile the father's wife usually adopts the child has led to this new kind of family and modern technology could further extend surrogacy's appeal by making gestational surrogates available to couples who provide both egg and sperm But is surrogacy a form of babyselling Is the practice a private matter covered by contract law or does adoption law govern Is it good or bad social and public policy to leave surrogacy unregulated Should the law allow encourage discourage or prohibit surrogate motherhood Ultimately the answers will depend on what the American public wants In the difficult process of sorting out such vexing questions Martha Field has written a landmark book Showing that the problem is rather too much applicable law than too little she discusses contract law and constitutional law custody and adoption law and the rights of biological fathers as well as the laws governing sperm donation Competing values are involved all along the legal and social spectrum Field suggests that a federal prohibition would be most effective if banning surrogacy is the aim but federal prohibition might not be chosen

for a variety of reasons a preference for regulating surrogacy instead of driving it underground a preference for allowing regulation and variation by state or a respect for the interests of people who want to enter surrogacy arrangements Since the law can support a wide variety of positions Field offers one that seems best to reconcile the competing values at stake Whether or not paid surrogacy is made illegal she suggests that a surrogate mother retain the option of abiding by or canceling the contract up to the time she freely gives the child to the adopting couple And if she cancels the contract she should be entitled to custody without having to prove in court that she would be a better parent than the father

Surrogate Motherhood Helena Ragone,1994-05-15 To date thousands of surrogate assisted births have taken place but never before have the experiences of the participants and program staff been explored in such detail Participants who have never before spoken publicly about their involvement in surrogacy here speak out and their statements are startling and intriguing **Adoption and Surrogate Pregnancy** Faith Merino,2010 Adoption and surrogate pregnancy are the two most realistic options currently available for millions of couples unable to have biological children In the past decade international adoption has become popular among those who wish to avoid the wait associated with adopting domestically Yet because of unique political economic and cultural circumstances within individual countries international adoption is fraught with legal controversies and difficulties Surrogate pregnancy is a relatively new and inherently complicated alternative With few regulations to guide the process and protect those involved however countries struggle to address its ethical and moral questions in addition to the legal political cultural and environmental ramifications Providing a historic overview and defining the key issues Adoption and Surrogate Pregnancy examines the laws related to adoption and surrogate pregnancy in five countries the United States China India the United Kingdom and Guatemala The discussion covers the ways in which adoption and surrogate pregnancy overlap and influence each other the nuances that further complicate matters and the controversies surrounding both issues such as fears of exploitation class discrimination socially unwanted children same sex parenthood and the difficulties of governing the family unit Allowing students to compare the subjects from the perspectives of different countries and cultures this balanced and objective volume sheds light on the way these issues affect the global community *Surrogate Motherhood* Rachel Cook, Shelley Day Sclater, Felicity Kaganas, 2003-06-30 This multi disciplinary book explores legal ethical social psychological and practical aspects of surrogate motherhood in Britain and abroad

Fundamental legal problems of surrogate motherhood. Global perspective. Piotr Mostowik, Marta Soniewicka, Nathalie Baillon-Wirtz, Mirosław Boruta, Justyna Holocher, Błażej Kmiecik, Ewa Kozerska, Tomasz Scheffler, Katażyna Mikša, Natalja Žitkevits, Avishalom Westreich, Andrea Nicolussi, Andrei A. Novikov, Carlos Martínez de Aguirre, Monika Wałachowska, Alla Anatoliivna Herts, Witold Borysiak, Agnieszka Czubik, Łukasz Mirocha, Agata Niżnik-Mucha, Aleksandra Dębowska, Marcin Sokołowski, Agnieszka Wedeł-Domaradzka, Olga Bobrzyńska, Dita Frintová, Ondřej Frinta, Janusz Gajda, Rafał Łukasiewicz, Elena Júdová, Martin Píry, Wojciech Lis, Piotr Telusiewicz, Michał Wojewoda, Edyta

Figura-Góralczyk, Radosław Flejszar, Piotr Rodziewicz, Konrad Burdziak, Łukasz Pohl, Wojciech Górowski, Agnieszka Laber, Dominik Zając, Karolina Sęk, 2019-07-01 The observation that *mater semper certa est* remains accurate under most legal systems in the world. Maternity is defined as the personal status filiation of a woman who gave birth to a child. It is typically complemented by the fatherhood of the man from whom the child biologically originates, often *quem nuptiae demonstrant*. However, in some states, a kind of competitive way of acquiring the legal status of mother and father or homosexual parents A and B has been introduced via concluding a contract with a surrogate mother. Usually with a woman coming from poorer societies and with the assistance of professional intermediaries and organizers. The postulates to change substantive family law or at least to recognize the effects of foreign law and procedures, a kind of procreative tourism, appear nowadays also in states generally prohibiting surrogate motherhood. The issues discussed in this volume concern both national law and international court cases. Recent examples include the opinion of the European Court of Human Rights of 10 April 2019 initiated by the French Cour de cassation, the judgement of the German Bundesgerichtshof of 20 March 2019 and dilemmas of Polish administrative courts. Focusing on the international perspective, the present volume as well as an accompanying book in Polish are the results of the international cooperation of over 30 experts from both member states and observer states of the Council of Europe. The monograph is structured from the general to the detail and includes a comprehensive view as well from the issues of philosophy and sociology of law to human rights standards of national constitutions and international agreements to principles of *ordre public* of forum and their protection with measures of private public and penal law. This allows readers, including legislators and judges, the better understanding of the fundamental legal problems that surrogate motherhood brings both in states where law creates them in a narrower or wider extent and in other countries of the world to which these problems can be imported with the movement of people and with *de lege lata* and *de lege ferenda* postulates.

Surrogate Motherhood Helena Ragone, 2019-07-11 *Surrogate Motherhood: Conception in the Heart* is a compelling account written with analytical clarity and remarkable compassion. Helena Ragon has given long overdue humanity and voice to the actual participants in the surrogate motherhood experience, a heretofore inaccessible population, and the results are fascinating. Anyone interested in fertility, parenting, reproduction, and kinship or anyone interested in contemporary culture will want to read this book.

Surrogate Motherhood Families Olga B.A. van den Akker, 2017-08-18 This comprehensive book covers the research, theory, policy, and practice context of unusual reproduction using third parties. Olga Van den Akker details the psychological adaptation required to continuing changes in public opinion, advances in technologies, and new legislations in surrogate motherhood and discusses their impact at an individual, societal, and global level. She describes the competing interests and interactions between legal, organisational, personal, social, psychological, and cultural issues in relation to biological and genetic surrogate and commissioning parenthood. This book is intended for professionals, practitioners, academics, and students interested in the complexities of

unusual reproduction using multidisciplinary perspectives *Surrogate Motherhood* Lawrence O. Gostin, 1990-05-22
glimpses of intriguing changes in social arrangements and cultural understandings in relation to surrogacy Disturbing
motherhood indeed New Scientist Larry Gostin has put together the definitive collection of essays on one of the most
perplexing and titillating topics in contemporary medical ethics This book includes contributions from some of the leading
scholars on the legal ethical and social aspects of surrogacy as well as several critical perspectives on the famous Baby M
case must reading for understanding the surrogate motherhood controversy Robert M Veatch Highly recommended Choice a
valuable resource for those concerned with an exceedingly difficult ethical legal and political problem Ethics There is a
wealth of information here on the current status questionis in the United States and anyone involved in the surrogacy debate
in the U S or otherwise will find working through this material very worthwhile Canadian Philosophical Review an excellent
sample of some of the best and most varied thinking so far on the numerous conceptual moral social and policy questions
raised by contract motherhood The Journal of Clinical Ethics Justice Michael J. Sandel, 2007-09-27 Moreover Sandel s
organization of the readings and his own commentaries allow readers to engage with a variety of pressing contemporary
issues

Decoding **Surrogate Mother**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Surrogate Mother**," a mesmerizing literary creation penned by a celebrated wordsmith, readers set about an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.

Surrogate Mother Introduction

In today's digital age, the availability of Surrogate Mother books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Surrogate Mother books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Surrogate Mother books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Surrogate Mother versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Surrogate Mother books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Surrogate Mother books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Surrogate Mother books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library.

lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Surrogate Mother books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Surrogate Mother books and manuals for download and embark on your journey of knowledge?

FAQs About Surrogate Mother Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Surrogate Mother is one of the best book in our library for free trial. We provide copy of Surrogate Mother in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Surrogate Mother. Where to download Surrogate Mother online for free? Are you looking for Surrogate Mother PDF? This is definitely going to save you time and cash in something you should think about.
