Suspensions Of Perception Attention Spectacle And Modern Culture:

Suspensions of Perception Jonathan Crary, 2001-08-24 *Suspensions of Perception* decisively relocates the problem of aesthetic contemplation within a broader collective encounter with the unstable nature of perception in psychology philosophy neurology early cinema and photography *Suspensions of Perception* is a major historical study of human attention and its volatile role in modern Western culture It argues that the ways in which we intently look at or listen to anything result from crucial changes in the nature of perception that can be traced back to the second half of the nineteenth century Focusing on the period from about 1880 to 1905 Jonathan Crary examines the connections between the modernization of subjectivity and the dramatic expansion and industrialization of visual auditory culture At the core of his project is the paradoxical nature of modern attention which was both a fundamental condition of individual freedom creativity and experience and a central element in the efficient functioning of economic and disciplinary institutions as well as the emerging spaces of mass consumption and spectacle Crary approaches these issues through multiple analyses of single works by three key modernist painters Manet Seurat and Cezanne who each engaged in a singular confrontation with the disruptions vacancies and rifts within a perceptual field Each in his own way discovered that sustained attentiveness rather than fixing or securing the world led to perceptual disintegration and loss of presence and each used this discovery as the basis for a reinvention of representational practices *Suspensions of Perception* decisively relocates the problem of aesthetic contemplation within a broader collective encounter with the unstable nature of perception in psychology philosophy neurology early cinema and photography In doing so it provides a historical framework for understanding the current social crisis of attention amid the accelerating metamorphoses of our contemporary technological culture

Contemporary Fictions of Attention Alice Bennett, 2018-08-09 With the supposed shortening of our attention spans what future is there for fiction in the age of the internet *Contemporary Fictions of Attention* rejects this discourse of distraction crisis which suggests that the future of reading is in peril and instead finds that contemporary writers construct fictions of attention that find some value in states or moments of inattention Through discussion of work by a diverse selection of writers including Joshua Cohen Ben Lerner Tom McCarthy Ali Smith Zadie Smith and David Foster Wallace this book identifies how fiction prompts readers to become peripherally aware of their own attention *Contemporary Fictions of Attention* locates a common interest in attention within 21st century fiction and connects this interest to a series of debates surrounding ethics temporality the everyday boredom work and self discipline in contemporary culture

Scenes of Attention D. Graham Burnett, Justin E. H. Smith, 2023-11-14 Are we paying enough attention At least since the nineteenth century critics have alleged a widespread and profound failure of attentiveness to others to ourselves to the world around us to what is truly worthy of focus Why is there such great anxiety over attention What is at stake in understanding attention and the challenges it faces This book investigates attention from a range of disciplinary perspectives including philosophy history anthropology art history and

comparative literature Each chapter begins with a concrete scene whose protagonists are trying and often failing to attend Authors examine key moments in the history of the study of attention pose attention as a philosophical problem explore the links between attention culture and technology and consider the significance of attention for conceptualizations of human subjectivity Readers encounter nineteenth century experiments in boredom ornithologists conveying sound through field notations wearable attention enhancing prosthetics students using online learning platforms and inquiries into attention as a cognitive state and moral virtue Amid mounting concern about digital mediation of experience the rise of surveillance capitalism and the commodification of attention Scenes of Attention deepens the thinking that is needed to protect the freedom of attention and the forms of life that make it possible **Smart Drugs, Attention Doping, and Screen Addicts**

Kenneth J. Saltman, 2025-07-24 With this book Keneth J Saltman argues that drugs are at the center of the most significant transformations of schooling Children are increasingly being drugged to compete on standardized tests to increase their attention levels in school and are being diagnosed with ADHD at exponentially increasing rates Saltman describes the material stakes in what he calls the education drugs attention complex namely educational profiteering through the mutually supportive sales of drugs and testing products drugs and digital screen technologies drugs and trauma resilience programs and drugs and the school to prison pipeline He shows how each of these examples are part of a vast interlocking drug and attention industry in which pharma and tech companies are commercializing and producing youth problems for profit and are targeting the most vulnerable young people The book covers the prevalence of screen addiction the misuse of hormone therapies for transgenders youth anxiety and trauma medication the connection between race and drugs and in the final chapter offers critical democratic and practical solutions for educators and policy makers to tackle these issues

Praxeological Political Analysis Michael Jonas, Beate Littig, 2016-11-03 With the interest in practice theory and praxeology on the rise praxeology can be considered an emerging new methodological as well as theoretical paradigm which successfully overcomes epistemological dichotomies of conventional approaches The articles in this volume serve as starting points for rendering contemporary practice theory approaches useful for the analysis of political events and processes without reducing the political aspect a priori to the formal policy sphere In this context Praxeological Political Analysis demonstrates that praxeological research is now increasingly addressing issues which are considered virulent in for instance the consumer sustainability or political spheres Following on from this key focus on political analysis this title also seeks to expand the current status of primarily political science adoptions of practice theory approaches to the analysis of predominantly narrowly defined political practices Written with an explicit focus on diverse political aspects and dimensions in the performative enactment of social practices this title will appeal to post graduate students and scholars interested in sociology of politics social and public policy development in social theory and political research methods *Innovation and Visualization* Amy Ione, 2005-01-01 Amy Ione s *Innovation and Visualization* is the first in detail account that relates the

development of visual images to innovations in art communication scientific research and technological advance Integrated case studies allow Ione to put aside C P Snow s two culture framework in favor of cross disciplinary examples that refute the science humanities dichotomy The themes which range from cognitive science to illuminated manuscripts and media studies will appeal to specialists artists art historians cognitive scientists etc interested in comparing our image saturated culture with the environments of earlier eras The scope of the examples will appeal to the generalist

The Poetics and Ethics of Attention in Contemporary British Narrative Jean-Michel Ganteau, 2022-12-27 This book uses attention as a prism through which to interrogate the literary text It starts from analyses of the changes that the mediasphere and communication technologies have brought for the contemporary subject submitting him/her to the tyranny of a new attention economy My point is that the contemporary novel and memoir resist such influences and evince a great deal of resilience by promoting an ecology of attention Citton based on poetic options whose pragmatic effect is to develop an ethics of the particularist type To do this I draw on critical and theoretical literature hailing from various fields psychology but also more prominently phenomenology political philosophy and analytical philosophy essentially Ordinary Language Philosophy alongside the ethics of care and vulnerability By using a selection of fictional and non fictional narratives I address such issues as social invisibilities climate change AI and cognitive disability and end up drafting a poetics of attention

The Sphere of Attention P. Sven Arvidson, 2006-02-22 The phone call came mid afternoon in February of 1996 The program chair for the annual meeting for the Southern Society of Philosophy and Psychology wanted to make sure he had the facts right This is somewhat unusual he began You re a philosophy professor who wants to present to psychologists in the psychology portion of the meeting That s right Well your paper was accepted for that part of the program but the others just wanted me to check and make sure that s where you want to be presenting That s right Reassured the professor

wished me luck and said good bye In my session at the meeting I was the last to present As my time approached the medium sized room slowly became crowded I dreamed that these psychologists had left their other meetings early to make sure to catch my presentation on the use of metaphors in attention research As I arose to present I noticed that the half full room had become standing room only Finally after years of feeling as if I was struggling alone in promoting and defending a phenomenology of attention I had an eager audience for my message My persistence had paid off I delivered my message with passion
