Parker,2016-01-22 Gen 1 29 Then God said I give you every seed bearing plant on the face of the whole earth and every tree that has fruit with seed in it They will be yours for food Gen 1 30 And to all the beasts of the earth and all the birds in the sky and all the creatures that move along the ground everything that has the breath of life in it I give every green plant for food And it was so Gen 6 3 Then the LORD said My Spirit will not contend with humans forever for they are mortal their days will be a hundred and twenty years And then man could eat everything much much later in Gen 9 3 Everything that lives and moves about will be food for you Just as I gave you the green plants I now give you everything Putting aside all of the environmental factors of a pre flood world where lifetimes lasted a lot longer than they do today I'm convinced the answer has more to do with senescence a state of unnoticed aging a quality existing in Adam and Eve's DNA before the Genesis 6 3 decision of God So why did God give Methuselah and a few others this quality to live for a lot many years longer than anyone else in human history What helped our progenitors live longer Is it just senescence or senescence enhanced by the food they ate Was their DNA better than ours Good luck convincing any scientist to take a look at the information contained in those two mentioned sources the Bible and Enuma Elish Even when they look at other things that are non spiritual scientists most often will discard any theory unless it was Western tested and approved What is still ironic and symptomatic of the conservative academic climate is that discoveries theories and evidence vigorously denied by the experts then can be accepted later after it has been approved without a shadow of a doubt as a scientific truth This was the same latter day scientific truth which was regarded as a ridiculous proposition earlier This therefore is a permanent reminder of the intellectual apathy that reigned at earlier times Such apathy still pervades the scientific cult society today especially when it comes to matters rooted in the Bible There is research aimed at answering these and other questions I was shocked at what I found which has radically changed the way I choose and prepare my foods I hope this book helps you too *Womancode* Alisa Vitti,2013 Alisa Vitti found herself suffering through the symptoms of polycystic ovarian syndrome PCOS and was able to heal herself through food and lifestyle changes Relieved and reborn she made it her mission to empower other women to be able to do the same As she says Hormones affect everything Have you ever struggled with acne oily hair dandruff dry skin
