Theories of Justice Stephanie Mar Brettman, 2015-04-30 What is justice How do we know justice How is justice cultivated in society These are the three questions that guide this critical dialogue with two representatives of the Catholic and Protestant traditions Karl Barth and Karol Wojtyła John Paul II Though the two thought leaders are shaped within divergent theological traditions and historical contexts they both appeal to Christian anthropology as a starting point for justice Their explorations into the nature of humanity yield robust new theories of justice that remain relevant for our contemporary era The third interlocutor our female author brings her own voice fully into the dialogue in the third part of the book in order to address the shortcomings in their theories and build upon their insights all the while seeking theories of humanity and social justice that result in justice for all persons

The End and the Beginning George Weigel, 2011-11-01 As March gave way to April in the spring of 2005 and the world kept vigil outside the apostolic palace in Rome the pontificate of Pope John Paul II then drawing to a poignant end was already being described as one of the most consequential in two millennia of Christian history With these words world renowned author and NBC Vatican analyst George Weigel begins his long awaited sequel to the international bestseller *Witness to Hope: The Biography of Pope John Paul II* More than ten years in the making *The End and the Beginning: Pope John Paul II: The Victory of Freedom, the Last Years, the Legacy* tells the dramatic story of the Pope's battle with communism in light of new and recently disclosed information and brings to a close Weigel's landmark portrait of a man who not only left an indelible mark on the Catholic Church but also changed the course of world history When he was elected pope in the fall of 1978 few people had ever heard of the charismatic Karol Wojtyła But in a very short time he would ignite a revolution of conscience in his native Poland that would ultimately lead to the collapse of European communism and death of the Soviet Union What even fewer people knew was that the KGB the Polish Secret Police and the East German Stasi had been waging a dangerous decades long war against Wojtyła and the Vatican itself Weigel with unprecedented access to many Soviet era documents chronicles John Paul's struggle against the dark forces of communism Moreover Weigel recounts

the tumultuous last years of John Paul's life as he dealt with a crippling illness as well as the new world disorder and revelations about corruption within the Catholic Church Weigel's thought provoking biography of John Paul II concludes with a probing and passionate assessment of a man who lived his life as a witness to hope in service to the Christian ideals he embraced

one on Pope Benedict XVI's encyclical *Caritas in Veritate* and one on Pope Francis's encyclical *Laudato Si'*. An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching.

Meaninglessness M. A. Casey, 2002-01-01 What would the world be like if we no longer needed meaning? Australian sociologist Michael Casey's revealing work charts the collapse of the metaphysical world and the innate human need for meaning. With the decline of Christianity and the demise of secular universalism in the West, the meaning and value of metaphysical culture has been replaced by an entirely new post-metaphysical world. In *Meaninglessness*, Casey revisits the social theory of Nietzsche, Freud, and Rorty in order to conceive how this post-metaphysical culture may take shape in the third millennium. Framing questions of enduring significance to contemporary social and political theory in a new methodological light, this work will appeal to scholars and general readers interested in sociology, postmodernism, cultural studies, political theory, and philosophy.

Freedom of Conscience in (Post)Soviet Space Julie K. deGraffenried, Michael Long, Xenia Dennen, 2025-08-15 *Freedom of Conscience in Post-Soviet Space* is a collection of original essays edited by Julie K. deGraffenried, Michael Long, and Xenia Dennen. Inspired by the work of Michael Bourdeaux, the holdings of the Keston Archive, and continuing questions of freedom of conscience ranging from England to Siberia and moving chronologically from 1917 to the twenty-first century, this book reveals the unique organization and methodology behind the Keston's collection of materials and the ways those in the West thought about religion and communism during the Cold War, including the connection between religious liberty and human rights. The essays demonstrate the depth and breadth of current research on religion in communist and postcommunist contexts, a much-needed corrective to contemporary political uses of religious freedom. Bourdeaux's activism and preservation of materials influenced many fields of study as reflected by contributing authors' varied disciplines: history, theology, sociology, languages, and literature. A preface by the theologian and former Archbishop of Canterbury, Rowan Williams, comments on Michael Bourdeaux's life and significance.

Beyond Self-interest Gregory R. Beabout, 2002-01-01 *Foundations of Economic Personalism* is a series of three book-length monographs each closely examining a significant dimension of the Center for Economic Personalism's unique synthesis of Christian personalism and free economic market theory. In the aftermath of the momentous geopolitical and economic changes of the late 1980s, a small group of Christian social ethicists began to converse with free-market economists over the morality of market activity. This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism. These scholars attempt to integrate economic theory, history, and methodology with Christian personalism's stress upon human dignity, humane social structures, and social justice. This volume presents the methodological and theoretical foundations for economic personalism through a detailed investigation of human action from two different yet complementary perspectives: from the personalist perspective of Karol Wojtyła in *The Acting Person* (1969) and the free-market perspective of Ludwig von Mises in *Human Action* (1949). By comparing

and contrasting the viewpoints of Wojtyla and Mises the authors develop a comprehensive praxeology i.e. a theory of human action capable of analyzing human action from moral and economic perspectives Beyond Self Interest illustrates how a unified praxeology could encourage more sustained analysis of the moral dimensions of economic activity while simultaneously softening the utilitarian prejudice of contemporary economic analysis *Society as a Department Store*

Ryszard Legutko, 2002-01-01 In *Society as a Department Store* Ryszard Legutko wrestles with the emancipatory ideology promulgated by postmodernists libertarians and liberal thinkers Legutko argues that modern Western liberals have embraced a revolutionary ethic they have turned their backs on their own cultural heritage and used its political and ideological apparatus to destroy classical metaphysics and epistemology The book considers the paradoxical implications of this state of affairs for Eastern European intellectuals arguing that with the triumph of liberalism over communism these intellectuals feel compelled to digest an ideology that shares many elements with the oppressive system from which they just liberated themselves Based on hubris rather than genuine humane concerns Legutko mourns not simply the loss of faith in classical Western culture but the way in which that loss is becoming a central point of identity
