Basic Elements of Survey Research in Education Ulemu Luhanga, Allen G. Harbaugh, 2021-09-01 In this first book of the series Survey Methods in Educational Research we have brought together leading authors and scholars in the field to discuss key introductory concepts in the creation implementation evaluation and dissemination of survey instruments and their resultant findings While there are

other textbooks that might introduce these concepts adequately well the authors here have focused on the pragmatic issues that inevitably arise in the development and administration process of survey instruments Drawing from their rich experiences the authors present these potential speed bumps or road blocks a survey researcher in education or the social sciences might encounter Referencing their own work and practice the authors provide valuable suggestions for dealing with these issues your advisor never told you about And all of the recommendations are aligned with standard protocols and current research on best practices in the field of research methodology This book is broken into four broad units on creating survey items and instruments administering surveys analyzing the data from surveys and stories of successful administrations modeling the entire research cycle Each chapter focuses on a different concept in the survey research process and the authors share their approaches to addressing the issues These topics include survey item construction scale development cognitive interviewing measuring change with self report data translation issues with surveys administered in multiple languages working with school and program administrators when implementing surveys a review of current software used in survey research the use of weights response styles assessing validity of results and effectively communicating your results and findings and much more The intended audience of the volume will be practitioners administrators teachers as researchers graduate students social science and education researchers not experienced in survey research and students learning program evaluation In brief if you are considering doing survey research this book is meant for you
