Sustainable Communities:

Sustainable Communities and the Challenge of Environmental Justice Julian Agyeman, 2005-08 Julian Agyeman once again pushes us all to think more critically about how to integrate two important political and intellectual projects

Designing Sustainable Communities Judy Corbett, Michael Corbett, 2000 Annotation The movement towards creating sustainable communities has gained increased prominence with approaches such as New Urbanism yet there are few examples of the successes This text offers an analysis of one such example Village Homes outside Davis **Ecovillages** Jan Martin Bang, 2005-09-01 A unique combination of permaculture design and ecovillage planning with examples from around the world [Sustainable Communities Task Force Report](#) President's Council on Sustainable Development. Condon, 2012-02-13 Questions of how the design of cities can respond to the challenge of climate change dominate the thoughts of urban planners and designers across the U S and Canada With admirable clarity Patrick Condon responds to these questions He addresses transportation housing equity job distribution economic development and ecological systems issues and synthesizes his knowledge and research into a simple to understand set of urban design recommendations No other book so clearly connects the form of our cities to their ecological economic and social consequences No other book takes on this breadth of complex and contentious issues and distills them down to such convincing and practical solutions *Sustainable Communities* Terry Marsden, 2008-01-28 Reviews the literatures on sustainable communities This volume explores and analyzes the policies practices and strategies related to community involvement and how this shapes local environmental contexts It debates and shares experiences generated through the various empirical studies **Global Sustainable Communities Handbook**

communities raise questions about the compatibility of capitalism and environmentalism and how we can green our way of life in a capitalist economy that values short term production and consumption over long term conservation and simple living If capitalism and its drive towards consumption has produced social and environmental degradation is it the best medium to identify solutions Sustainable Communities and Green Lifestyles examines one ecovillage as it attempts to create a sense of

community while reducing its impact on the natural environment Through extensive participant observation the book demonstrates how ecovillages are immersed within a larger discourse of class race and lifestyle choices highlighting the inseparability of environmental sustainability and social justice Sustainable communities are confronted by the contradictions of green consumption and must address social inequality or risk focusing inward on personal green consumerism creating mere green havens for the few who can afford to live in them This book cautious of redirecting environmentalist efforts away from structural solutions and onto personal environmentalism offers a critical perspective on the challenges of an emerging green lifestyle This book offers a critical perspective on the direction of US environmentalism and contributes to debates in environmental studies anthropology and urban planning *Creating Sustainable Communities* Rik Scarce, 2015-02-23 From Mount Marcy to Manhattan and beyond the Hudson River region has become an incubator for rich and varied experiments in sustainable living In this fascinating book Rik Scarce showcases some of these efforts by telling the stories of dynamic individuals and organizations that are remaking the region's landscape through ecosystem stewardship nurturing agricultural practices and urban renewal for the twenty first century along with those promoting creative land use planning richly functioning communities and green businesses Together their achievements point to the potential for other areas of the country to forge sustainable futures and also remind us of the sobering realities and daunting challenges that await us as we attempt to remake our relationships with the planet and with each other SUNY Press has collaborated with Knowledge Unlatched to unlock KU Select titles The Knowledge Unlatched titles have been made open access through libraries coming together to crowd fund the publication cost Each monograph has been released as open access making the eBook freely available to readers worldwide Discover more about the Knowledge Unlatched program here <https://knowledgeunlatched.org> It can also be found in the SUNY Open Access Repository at <https://soar.suny.edu/handle/20.500.12648/8440>
