Sustainable Development Constraints And Opportunities:

Sustainable Development Mostafa Kamal Tolba, 2013-10-22 Sustainable Development Constraints and Opportunities contains a selection of the author's speeches made between 1982 and 1986. During this 5-year period, knowledge of environment development relationships has grown considerably, and this evolving perception can be discerned in his statements spanning those years. Taken together, the common thread binding all the speeches is the fact that long-term development can only be achieved through sound environmental management that is sustainable development, which is the title of this book. The speeches included in this volume were delivered in the author's capacity as the Executive Director of the United Nations Environment Programme (UNEP). They thus cover primarily broad areas of interest of UNEP's programs and policies. Key topics discussed include environmental protection, disarmament, and the environment. Environmental information for engineers, the impact of human settlements on the environment, environmental management in the Gulf, the causes, effects, and prevention of desertification, and the environmental impact assessment process.

Development: Challenges for development Stuart Corbridge, 2000. Brings together more than one hundred articles dealing with the discipline of development in all its diversity. Key topics include the transformation of peasant economies, agribusiness, rural urban relations, markets, industrialization, workers, trade, aid, and structural adjustment. A unique set in its comprehensiveness and diversity, it also considers four key challenges for development theory and practice relating to capabilities, ethics, sustainability, and regulation.

Population and Development: Challenges and Opportunities Anatoly G. Vishnevsky, 2009-10-20. Population and Development Challenges and Opportunities is a component of Encyclopedia of Human Resources Policy Development and Management in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty-one Encyclopedias. The Theme on Population and Development Challenges and Opportunities, with contributions from distinguished experts in the field, discusses population and development. This volume is aimed at the following five major target audiences: University and College students, Educators, Professional practitioners, Research personnel, and Policy analysts, managers, and decision makers, and NGOs.
