

Sustained Content Teaching in Academic ESL/EFL: A Practical Approach

Marcia Pally (Ed.), Houghton Mifflin Company, Boston, 2000, xvi + 247 pp. (soft cover). ISBN 0-395-46076-2

Sustained Content Teaching in Academic ESL/EFL: A Practical Approach is an edited collection of 12 chapters on the implementation of sustained content-based instruction (CBI) in the ESL/EFL classroom. Sustained CBI is defined as the study of one content area over time and is thus contrasted to regular CBI, which, while also concerned with the supremacy of content over language, does not specify that the content should be limited to a single content area.

Before I discuss the contents of the book, it is necessary to clarify the term CBI. In the introduction, the editor states, "Among the earliest CBI programs in the post-war period were those in English for Science and Technology (EST)..." (p. 4). Here the editor erroneously conflates ESP and CBI, for, as is universally acknowledged in the field of ESP, "EST is the senior branch of ESP" (Swales, 1985, p. X). In Master (1997), I distinguished CBI from ESP, describing CBI as a type of syllabus on a par with structural, notional, functional, situational, and task-based syllabi, and ESP as a division of English Language Teaching (ELT), the only other member of which is English for General Purposes (EGP). I suggested that ESP, in contrast to EGP, made substantial use of the content-based syllabus, though it used other syllabi as well, also known as mixed or layered syllabi (Brown, 1995).

ESP was originally divided into English for Academic Purposes (EAP) and English for Occupational Purposes (EOP). EAP included the English required for the study of Science and Technology (EST), Medicine (EMP), business and economics (EBE), law (ELP), etc. while EOP included the English required to function as a pilot, secretary, auto mechanic, etc. (for the distinction between instructional and operational English, see, e.g. Strevens, 1988). EAP has since come to be associated with study skills and preparatory academic writing and critical thinking skills, which Jordan (1997) labels English for General Academic Purposes (EGAP), describing the original domain of EAP as English for Specific Academic Purposes (ESAP).

Sustained CBI is quite similar to ESAP, in which the constraint of the content to a single area is implicitly assumed (e.g. English for Medicine concerns the content area of medicine). The only difference seems to be that in sustained CBI, at least as promulgated in this text, the content area (described as "universal donor" content, p. 13), is selected by the instructor, is not announced prior to the course, and is thus not selected on the basis of a specific needs analysis. In this sense, sustained CBI is simply theme-based CBI that stays within a single content area.

With that terminological quibble out of the way, I turn now to the content of the book. Six of the chapters concern sustained CBI in specific fields (psychology, English literature, engineering, American history, film and society, and health), four concern sustained CBI in the development of specific skills (academic reading and writing, speaking (via comic books), grammar, and use of the Internet), one concerns assessment in sustained CBI, and the introduction provides a theoretical background and rationale for sustained CBI. Some of the more interesting chapters are summarized later.
