Taking Sides Michael Harrington, 1985-10-01 [The Other American The Life Of Michael Harrington](#) Maurice Isserman, 2001-03-08 Most Americans first heard of Michael Harrington with the publication of *The Other America* his seminal book on American poverty Isserman expertly tracks Harrington's beginnings in the Catholic Worker [Advocacy Journalists](#) Edd Applegate, 2009-05-11 This book focuses on the lives of journalists and editors who contributed to advocacy journalism Each entry contains biographical information about the journalists their professional careers major works and in some cases commentary on those works **The Democratic Socialist Vision** Gary Dorrien, 1987 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com) **Anti-Communism in Twentieth-Century America** Larry Ceplair, 2011-10-05 This compelling critical analysis of anti communism illustrates the variety of anti Communist styles and agendas thereby making a persuasive case that the threat of domestic communism in Cold War America was vastly overblown In the United States today communism is an ideology or political movement that barely registers in the consciousness of our nation Yet merely half a century ago communist was a buzzword that every citizen in our nation was aware of a term that connoted traitor and almost certainly a characterization that most Americans were afraid of **Anti Communism in Twentieth Century America A Critical History** provides a panoramic perspective of the types of anti communists in the United States between 1919 and the collapse of the Soviet Union It explains the causes and exceptional nature of anti communism in the United States and divides it into eight discrete categories This title then thoroughly examines the words and deeds of the various anti Communists in each of these categories during the three Red Scares in the past century The work concludes with an unapologetic assessment of domestic anti communism This book allows readers to more fully comprehend what the anti communists meant with their rhetoric and grasp their impact on the United States during the 20th century and beyond for example how anti communism has reappeared as anti terrorism **Michael Harrington** Robert Gorman, 2021-12-24 In this provocative biographical portrait Robert A Gorman examines the political and intellectual life of this engaging radical thinker while looking ahead to the ways in which the work and example he has left us can affect political life in the twenty first century Michael Harrington's major attempt to Americanize socialism plays a big part in Gorman's analysis He tells readers how it is possible to be both radical and patriotic and how an unjust system can be transformed without being destroyed *The Revival of Labor Liberalism* Andrew Battista, 2023-12-11 *The Revival of Labor Liberalism* is a careful analysis of the twentieth century decline of the labor liberal coalition and the important efforts to revive their political fortunes Andrew Battista chronicles the efforts of several new political organizations that arose in the 1970s and 1980s with the goal of reuniting unions and liberals Drawing from extensive documentary research and in depth interviews with union leaders and political activists Battista shows that the new organizations such as the Progressive Alliance Citizen Labor Energy Coalition and National Labor Committee made limited but real progress in reconstructing and

strengthening the labor liberal coalition Although the labor liberal alliance remained far weaker than the rival business conservative alliance Battista illuminates that it held a crucial role in labor and political history after 1968 Focuses on a fraught but evolving partnership Battista provides a broad analysis of factional divisions among both unions and liberals and considers the future of unionism and the labor liberal coalition in America *Essays and Reviews* Bernard Williams, 2015-10-13 The first collection of popular reviews and essays from distinguished philosopher Bernard Williams Bernard Williams was one of the most important philosophers of the past fifty years but he was also a distinguished critic and essayist with an elegant style and a rare ability to communicate complex ideas to a wide public This is the first collection of Williams s popular essays and reviews Williams writes about a broad range of subjects from philosophy to science the humanities economics feminism and pornography Included are reviews of major books such as John Rawls s *Theory of Justice* Richard Rorty s *Consequences of Pragmatism* and Martha Nussbaum s *Therapy of Desire* But many of these essays extend beyond philosophy providing an intellectual tour through the past half century from C S Lewis to Noam Chomsky No matter the subject readers see a first class mind grappling with landmark books in real time before critical consensus had formed and ossified *Socialism* Michael Harrington, 2011-11 *Socialism Past and Future* is prominent thinker Michael Harrington s final contribution He composed a thoughtful intelligent and compassionate treatise on the role of socialism in modern
