The Fractious Nation Unity And Division In Contemporary American Life:

The Fractious Nation? Jonathan Rieder, Stephen Steinlight, 2003-11-06 What are we to make of the speed with which the new climate of national solidarity emerged after September 11 Does it not look strange against a backdrop of the much touted divisiveness of American life In truth The Fractious Nation makes clear the contrast of the time of divisiveness before and the time of unity that followed is much too stark indeed Less than a year before two planes slammed into the World Trade Center the 2000 presidential election produced not just the starkly blue and red electoral map but also the two tribal Americas those totemic colors emblazoned And from the cultural wars to immigration restriction from the Christian right to political correctness recent decades have witnessed much hand wringing on the left and the right about the fragmentation of American life The Fractious Nation enlists the critical intelligence of fourteen distinguished contributors who illuminate the schisms in American life and the often volatile debates they have inspired in the realms of culture ethnic and racial pluralism and political life The collective wisdom of The Fractious Nation suggests a counterview to all the overheated rhetoric The authors warn against fixating on flamboyant incidents of racial conflict when black and white values overlap considerably On a range of cultural issues the gap between our citizens has closed as well And even as the rivalry between liberalism and conservatism transmutes into new forms the political center remains vital and democratic We are tied together not just by shared values but by institutions the Constitution the culture of consumption the etiquette of ethnic respect In private life and public affairs our nation has expanded the meaning of democratic citizenship Still there s no room for self congratulations here Tendencies toward preoccupation with private life encourage indifference to the suffering of the less privileged This is also one of the main failings of the narrative of fragmentation In its focus on matters of shared values it too distracts from issues of poverty and inequality that also fragment the human spirit Contributors Richard Bernstein John J DiIulio Jr Paul DiMaggio E J Dionne Jr Kevin Gaines Jennifer Hochschild Douglas S Massey Martha Minow Cecilia Muñoz Jonathan Rieder Theda Skocpol Paul Starr Mary C Waters Jack Wertheimer

The Fractious Nation? Jonathan Rieder, Stephen Steinlight, 2003 Less than a year before two planes slammed into the World Trade Center the 2000 presidential election produced not just the blue and red electoral map but also revealed the fractured nation that those totemic colors represent And from the cultural wars to immigration restriction from the Christian right to political correctness recent decades have witnessed much hand wringing on the left and the right about the fragmentation of American life The Fractious Nation enlists the critical intelligence of fourteen distinguished contributors who illuminate the schisms in American life and the often volatile debates they have inspired in the realms of culture ethnic and racial pluralism and political life This collection of essays offers a bracing challenge to widely held beliefs about cultural and political fragmentation in the United States today The Fractious Nation may well change the debate on issues ranging from multiculturalism and race relations to governance and public philosophy William A Galston author of Liberal Purposes Goods

Virtues and Diversity on the Liberal State The virtue of this stunning collection of essays is the shrewd moderation of its authors who explain that while we in the United States have serious social conflict we also have the intellectual resources to address it Most of all The Fractious Nation whose contributors embrace very different political approaches reminds us that we must struggle to understand what constitutes nationhood in this difficult century Stanley N Katz professor Woodrow Wilson School and director of Center for Arts and Cultural Policy Studies Princeton University With an all star team of contributors this volume explores the many ways that fear of fragmentation plagues the American psyche today and provides the kind of understanding that allows us to overcome such fears The breadth of talent assembled between the covers of this book is simply awesome Robert Suro author of Strangers among Us Latino Lives in a Changing America This is an accessibly written and valuable collection by outstanding social scientists addressed to the broad question of whether the United States is experiencing or headed for a culture war R Stephen Warner author of New Wine in Old Wineskins Evangelicals and Liberals in a Small Town Church This is an exceptionally well focused collection of up to date analytical reflections on several of the most pressing issues in American political culture today written by some of our most discerning scholars and journalists David A Hollinger author of Postethnic America Beyond Multiculturalism Shaping History Molly Andrews, 2007-07-12 Featuring extraordinary personal accounts this book provides a unique window through which to examine some of the great political changes of our time and reveals both the potential and the challenge of narrating the political world Molly Andrews novel analysis of the relationship between history and biography presents in depth case studies of four different countries offers insights into controversial issues such as the explosion of patriotism in post 9 11 USA East Germans ambivalent reactions to the fall of the Berlin Wall the pressures on victims to tell certain kinds of stories while testifying before South Africa s Truth and Reconciliation Commission and the lifelong commitment to fight for social justice in England Each of the case studies explores the implicit political worldviews which individuals impart through the stories they tell about their lives as well as the wider social and political context which makes some stories more tell able than others

Holocaust Consciousness in Contemporary Britain Andy Pearce, 2014-06-05 The Holocaust is a pervasive presence in British culture and society Schools have been legally required to deliver Holocaust education the government helps to fund student visits to Auschwitz the Imperial War Museum s permanent Holocaust Exhibition has attracted millions of visitors and Britain has an annually commemorated Holocaust Memorial Day What has prompted this development how has it unfolded and why has it happened now How does it relate to Britain s post war history its contemporary concerns and the wider globalisation of Holocaust memory What are the multiple shapes that British Holocaust consciousness assumes and the consequences of their rapid emergence Why have the so called lessons of the Holocaust enjoyed such popularity in Britain Through analysis of changing engagements with the Holocaust in political cultural and memorial landscapes over the past generation this book addresses these questions demonstrating the complexities of Holocaust consciousness and

reflecting on the contrasting ways that history is used in Britain today Planning in Divided Cities Frank Gaffikin, Mike Morrissey, 2011-01-21 Does planning in contested cities inadvertently make the divisions worse The 60s and 70s saw a strong role of planning social engineering etc but there has since been a move towards a more decentralised community planning approach The book examines urban planning and policy in the context of deeply contested space where place identity and cultural affinities are reshaping cities Throughout the world contentions around identity and territory abound and in Britain this problem has found recent expression in debates about multiculturalism and social cohesion These issues are most visible in the urban arena where socially polarised communities co habit cities also marked by divided ethnic loyalties The relationship between the two is complicated by the typical pattern that social disadvantage is disproportionately concentrated among ethnic groups who also experience a social and cultural estrangement based on religious or racial identity Navigating between social exclusion and community cohesion is essential for the urban challenges of efficient resource use environmental enhancement and the development of a flourishing economy The book addresses planning in divided cities in a UK and international context examining cities such as Chicago hyper segregated around race and Jerusalem acting as a crucible for a wider conflict The first section deals with concepts and theories examining the research literature and situating the issue within the urban challenges of competitiveness and inclusion Section 2 covers collaborative planning and identifies models of planning policy and urban governance that can operate in contested space Section 3 presents case studies from Belfast Chicago and Jerusalem examining both the historical contemporary features of these cities and their potential trajectories The final section offers conclusions and ways forward drawing the lessons for creating shared space in a pluralist cities and addressing cohesion and multiculturalism Addresses important contemporary issue of social cohesion vs urban competitiveness focus on impact of government policies will appeal to practitioners in urban management local government and regeneration Examines role of planning in cities worldwide divided by religion race socio economic etc Explores debate about contested space in urban policy and planning Identifies models for understanding contested spaces in cities as a way of improving effectiveness of government policy **Remapping Citizenship and the Nation in**

African-American Literature Stephen Knadler, 2009-09-10 Through a reading of periodicals memoirs speeches and fiction from the antebellum period to the Harlem Renaissance this study re examines various myths about a U S progressive history and about an African American counter history in terms of race democracy and citizenship Reframing 19th century and early 20th century African American cultural history from the borderlands of the U S empire where many African Americans lived worked and sought refuge Knadler argues that these writers developed a complicated and layered transnational and creolized political consciousness that challenged dominant ideas of the nation and citizenship Writing from multicultural contact zones these writers forged a new black politics one that anticipated the current debate about national identity and citizenship in a twenty first century global society As Knadler argues they defined created and deployed an alternative

political language to re imagine U S citizenship and its related ideas of national belonging patriotism natural rights and democratic agency **Political Tone** Roderick P. Hart, Jay P. Childers, Colene J. Lind, 2013-05-14 It s not what you say but how you say it Solving problems with words is the essence of politics and finding the right words for the moment can make or break a politician s career Yet very little has been said in political science about the elusive element of tone In *Political Tone* Roderick P Hart Jay P Childers and Colene J Lind analyze a range of texts from speeches and debates to advertising and print and broadcast campaign coverage using a sophisticated computer program DICTION that parses their content for semantic features like realism commonality and certainty as well as references to religion party or patriotic terms Beginning with a look at how societal forces like diversity and modernity manifest themselves as political tones in the contexts of particular leaders and events the authors proceed to consider how individual leaders have used tone to convey their messages How did Bill Clinton s clever dexterity help him recover from the Monica Lewinsky scandal How did Barack Obama draw on his experience as a talented community activist to overcome his inexperience as a national leader And how does Sarah Palin s wandering tone indicate that she trusts her listeners and is open to their ideas By focusing not on the substance of political arguments but on how they were phrased *Political Tone* provides powerful and unexpected insights into American politics

The United States in 2005: Who We Are Today , *Cinematic Geographies and Multicultural Spectatorship in America* Amy Lynn Corbin, 2019-03-30 Exploration intertwined with home seeking has always defined America Corbin argues that films about significant cultural landscapes in America evoke a sense of travel for their viewers These virtual travel experiences from the mid 1970s through the 1990s built a societal map of popular multiculturalism through a movie going experience **Global Hollywood 2** Toby Miller, Nitin Govil, John McMurria, Richard Maxwell, Ting Wang, 2019-07-25 Substantially revised and updated this book highlights how Hollywood has transformed itself to attain ever global clout and reach and the material factors underlining Hollywood s apparent artistic success Takes into consideration recent events affecting Hollywood such as 9 11 US foreign policy and developments in consumer technology
