Middle insomnia is when you have difficulty staying asleep. Once awakened you stay awake through the wee hours of the morning. The most severe level of insomnia is late or terminal insomnia. This is when you wake up early in the morning and stay awake after sleeping less than 6 hours. There are a variety of reasons that you may be having trouble sleeping. If your insomnia is due to a medical condition your doctor will be able to provide you with suggestions and appropriate medical attention. If it's determined that your sleep problem is due to a medical condition the condition will be treated with the intention that this will in turn treat the insomnia.
