Battle for Our Minds Michael Widlanski, 2012-03-06 From political communications expert Dr Michael Widlanski comes a rich and detailed portrayal of how intellectual arrogance and complacency in our government has led to a failure to effectively use counter terrorism intelligence When 3 000 people were murdered in simultaneous terror attacks on September 11 2001 The New York Times said the attacks came out of the blue Nothing could be further from the truth Arab Islamic terrorists had been attacking the West for a decade in Arabia and Africa but the attacks began to focus on America itself with the World Trade Center strike in 1993 Dr Michael Widlanski describes other attacks and plots that were largely forgiven ignored or botched by academia media and government in this provocative book He paints a chilling portrait of how our top analytical institutions were unaware as terrorists bragged about their plans in mosques in New York and New Jersey while professors the media the FBI the CIA and CNN all dropped the ball Terrorists want to get into our head not into our house Their goal is not seizing territory but rather controlling the mind including manipulating communication and public opinion Combating terror means fighting on the battlefield of the mind *Battle for Our Minds* confronts this battle and shows how the West has been defeating itself Timely informative and thoroughly researched this is an eye opening portrayal of the top echelons of our country s counter terrorism system
