The Anglo Saxon Chronicle Papermac S:

The Power and the Glory Steve Dunn, 2021-01-30 The Power and the Glory tells the story of royal fleet reviews from the fifteenth century to the 2005 International Fleet Review commemorating the 200th anniversary of Trafalgar which was the final exhibition of that pomp and ceremony that had been an essential if irregular expression of naval strength for more than 500 years Whether to impress or deter a foreign power often when mobilizing for war provide reassurance for domestic consumption or celebrate a sovereign's accession royal naval reviews were an integral part of political positioning and national pride At these reviews particularly during the eras of British naval dominance potential allies or enemies were invited to marvel at British prowess while the British public could revel in the country's naval superiority advances in technology and ship design were showcased often for commercial benefit and homage paid to kings and queens at the head of their fleets Starting with an examination of the reasons for Britain's need for and close association with a navy the author goes on to explain the historical political and technological context for British fleet reviews from the time of Edward III onwards The Royal Navy reached its apogee in the extended nineteenth century and The Power and the Glory examines this period in particular the aims and ambitions of the nineteen reviews during the reigns of Queen Victoria and King Edward VII and the subsequent twelve under George V Edward VIII and George VI After the Second World War and the Coronation Review of Queen Elizabeth II in 1953 the Royal Navy entered a long period of almost terminal decline which has been reflected in the lack of royal reviews since 2005 The book examines the reasons for this loss of what had been for centuries the main pillar of British power Finally the book looks at the history of the royal yachts used for conveying monarchs around their shores and fleets and how they reflected the character of the times Political manoeuvring technological change and the personal stories of many of the naval characters involved are all told with pace and verve as are the histories of many of the ships involved The Power and the Glory is a celebration of the Royal Navy and its role in our history and in particular of its essential importance to the pomp and glory of Britain's maritime heyday in the nineteenth and twentieth centuries

Teaching History from Primary Evidence (1993) Keith Andreetti, 2017-09-29 Originally published in 1993 this volume will be of particular interest to primary school teachers who may never have taught history as a discreet subject before and who are worried by their negative memories of school history and lack confidence as to their own knowledge of the subject The author provides a practical guide to the theory and rudiments of history with guidance on how to present it using primary evidence in an exciting way that makes sense in terms of primary practice **The Anglo-Saxon chronicle** D. N. Dumville, Simon Keynes, G. P. Cubbin, Simon Taylor, 1983 New evidence for the relationship between the manuscripts of the Anglo Saxon Chronicle Ranks among the best work on the vernacular texts undertaken this century In its clarity of thought and expression it is a model to emulate MEDIUM AEVUM G P Cubbin's important introduction accompanying this edition argues for MS D having been created in about 1060 by copying two other Chronicle manuscripts thus reducing the

number of versions of the Chronicle to three and simplifying issues of interrelationship Strong evidence is produced for the work being carried out in or near Worcester and another new and unexpected finding is that D itself became the source of other versions of the Chronicle for the mid eleventh century Linguistic analysis considers unusual features of the manuscript and supports the new history presented here Dr G P CUBBIN is Lecturer in German at the University of Cambridge

Spectre of Invasion Steve Dunn, 2025-06-30 Explores Britain's fear of a German coastal invasion during World War I examining raids defense efforts and the political and strategic fallout By 1900 the British government and public had become gripped by a new and growing fear of invasion not from traditional enemies such as France but from Germany Such terror was driven by lurid books and fanned by newspapers These anxieties sparked off a fight between those who wanted a defence based on a larger standing army with conscription to support it and those who believed the Royal Navy was sufficient to defend the coast and deprecated the expense and role of a standing land force With war declared in 1914 Britain's coastline came under attack Major German raids created terror and the fear of invasion drove naval and military planning and dispositions to protect Britain's littoral Coastal towns such as Scarborough Great Yarmouth Lowestoft Southwold and even the Outer Hebrides came under attack and landings by German troops were feared daily Running battles were fought with these attacking forces and both ships and lives ashore were lost Spectre of Invasion examines all of the raids made and the success or failure of them and relates these events from the point of view of naval and civilian participants It tells the story of the Royal Navy and its role in the defence of the British coast in the First World War and examines the strategic and political developments resultant from invasion fears And it considers how the plans laid for coastal defence fared under the test of conflict laying bare what it was like to be part of the battles around the British coast both as combatant and as citizen Finally it looks at Britain's inability to co-ordinate naval and military effort throughout the War This is a thought provoking book which combines a fast paced narrative with fascinating insights into Britain's predicament in the years leading up to and through the First World War It will appeal to anyone interested in this era of the country's history and the fear of invasion that stalked the country in those years

In Search of the Medieval Voice Lorna Bleach, Katariina Närä, Sian Prosser, 2009-10-02 Organised in 2008 by four medievalists from the University of Sheffield Locating the Voice Expressions of Identity in the Middle Ages provided a theatre for dialogue between postgraduates and early career researchers from around the world This collection of articles born out of the conference forms an intriguing and interesting way of looking at identity and reflects the editors desire to reconcile ideas within adjacent interdisciplinary fields of study Reaching far beyond the domain of medieval literature already familiar to so many this book examines the authorial and pictorial voice the voice of national identity and even the physical attributes a medieval voice may have had Each contributor shows how in locating the voice in their own field of research it is possible to build a multi disciplinary approach to individuality and identity in the medieval world
