The Appraisal Of Teaching Concepts And Process:

The Appraisal of Teaching Gary D. Borich, Kathleen S. Fenton, 1977 **The Appraisal of Teaching** Gary D. Borich, Kathleen S. Fenton, 1977 *Teachers' Thought Processes* Christopher M. Clark, 1984 New Directions In Educational Evaluation Ernest R. House, 2013-10-28 First published in 1986 Measuring the outcomes of educational practices is a modern phenomenon Valuing their worth is as old as philosophy itself It is the singular value of this collection of papers set in context and introduced by Ernest House that it holds in dynamic equilibrium both the measurement and the valuing sides of educational evaluation *The Effectiveness of Mathematics Teaching in Primary Schools* Zhenzhen Miao, David Reynolds, 2017-07-06 The Effectiveness of Mathematics Teaching in Primary Schools Lessons from England and China provides a unique insight into the mathematics classrooms of these two countries and arrives at a time when the world is eager to know how Chinese learners consistently excel at learning mathematics and other core subjects Showcasing the kinds of teaching methods that work within and across countries this book presents a rich collection of views including those from teachers their native colleagues their foreign colleagues and the researcher regarding the quality of mathematics teaching today Interweaving scientific results about teaching and learning evaluations with multiple perspectives of various roles in and out of the classroom Miao and Reynolds offer insights into how and why different approaches of teaching have led to different learning outcomes in mathematics internationally Building on rigid and robust analyses of the most up to date data in England and China the book indicates that it is through changing teaching rather than changing teachers that mathematics learning can be improved because it is what teachers do in the classroom that really makes a big difference Containing four decades of wisdom from the field of teaching effectiveness research this book is essential reading for all who want to improve the quality of mathematics teaching worldwide This book is particularly relevant for educational researchers postgraduate students and teachers as well as school leaders policymakers and parents **Teaching in the Primary School (1989)** Maurice Galton, 2017-09-29 Originally published in 1989 this book reviews teaching methods and curriculum practice against the reality of classroom practice and educational objective and policies In some ways a re appraisal of progressive individual and group teaching and learning methods together with practical guidelines for teachers
