Sketching Painting A Step By Step Intr:

Astronomical Sketching: A Step-by-Step Introduction Richard Handy, David B. Moody, Jeremy Perez, Erika Rix, Sol Robbins, 2007-10-08 If you have ever gazed through the eyepiece of a telescope at the magnificent rings and banded globe of Saturn or found yourself breathless at the sight of long shadows jutting across crater floors on the terminator of the Moon then you will understand the power of those direct visual experiences You are present at a unique event a connection between a part of the cosmos your eye and brain Sketching preserves this tie with direct observation because it allows the observer to spend time at the eyepiece surveying the object intimately while drawing This personal experiential relationship to celestial objects differentiates astronomical sketching from photographic or CCD imaging Sketching is an excellent way to record personal encounters with the celestial wonders because as you are drawing you are training your eye to perceive ever greater detail taking the fullest advantage of your telescope's light grasp and resolution Moreover astronomical sketches can be artwork in themselves for display and decoration in the home or observatory Despite the fact that there are a wide variety of drawing media and techniques there exists no comprehensive treatment of the subject of astronomical sketching This book will present the amateur with fine examples of astronomical sketches and step by step tutorials in each medium including pencil pen and ink chalks and pastels painting and computer graphics programs This unique book can teach almost anyone to create beautiful sketches of celestial objects by following simple illustrated step by step instructions Readers can select a chapter related to their preferred class of object and rapidly learn techniques in several media Each chapter contains useful information regarding equipment types of telescope and eyepiece combinations techniques for preserving and archiving sketches and suggestions for accurate record keeping

The Village Children, an Introduction to the Art of Painting Children and Their Stories Marie Dubois, 2009 The book is both a children's story book and a craft book and is in two parts The story book section contains short and longer stories for young children to read printed in both English and French The craft section is an introduction to painting for the aspiring young artists Part One includes full colour illustrations of plates originally painted by hand on porcelain china and canvas by Marie Dubois On the opposite page the author has written stories both in English and French based on the theme of each plate The stories have been translated to French to familiarise young children to a foreign language especially now learning a second language has been added to the school curriculum Part Two is an introduction to the art of painting The book gives brief instructions as to the materials required basic techniques and painting principles that beginners will need to create some fine artistic tableau as well as definitions of various brush strokes for beginners to practice so that they can achieve their own fine art work The Book also includes line work for each plate design which can be traced on to any painting material It is hoped that the artwork contained in this volume will inspire other painters to produce similar pieces of work The designs require a great deal of careful creative attention All drawings and colours on the designs have a distinctive style particularly the characteristic figures old fashion

costumes and hats The book is not only for children to read or parents to read to their children but is also for painters art teachers and others who might be interested in creating this fine art and will have reason to feel proud of their own achievements
