

The background of the entire cover is a deep space image filled with stars and distant galaxies. Two prominent galaxies are visible: one in the upper right corner and a larger one in the lower right. Both galaxies exhibit a vibrant pinkish-purple hue, likely representing emission from ionized hydrogen or other nebular gases. The central cores of these galaxies are bright yellow-white, indicating regions of intense stellar activity or high temperatures. The surrounding space is a dark, velvety black, densely populated with individual stars of varying brightness and colors.
