somewhat unfashionable thinkers like Johann Gottfried Herder and Edmund Burke as well as T S Eliot Matthew Arnold Raymond Williams and Oscar Wilde Eagleton provides a cogent overview of culture set firmly in its historical and theoretical contexts illuminating its collusion with colonialism nationalism the decline of religion and the rise of and rule over the uncultured masses Eagleton also examines culture today lambasting the commodification and co option of a force that properly understood is a vital means for us to cultivate and enrich our social lives and can even provide the impetus to transform civil society

Ideology Terry Eagleton, 2014-07-21 This collection of readings on the concept of ideology is brought together by the Marxist critic Terry Eagleton His introduction traces the historical evolution of ideology and examines in a more theoretical style the various meanings of the word and their significance The readings begin with the first English translations of some of the writing of the French founder of the concept in the eighteenth century They then move from the enlightenment to Hegel and Marxism with particular emphasis on Marx and Engels themselves They also look at other eighteenth century traditions of thought such as Nietzsche and Freud All the readings are theoretical rather than examples of ideology at work and will be of interest to undergraduate students of cultural political and historical studies concerned with ideology as well as students of English literature
