The Architecture Of Chicagos Loop:

The Architecture of Chicago's Loop Frances H. Steiner, 1998 An ideal guide for architects builders and all those who are passionate about architecture this book takes the reader through the architecture of buildings in the heart of Chicago while providing a lesson in art history Most of the inventions of modern architecture were born and tested in Chicago from the balloon frame to the earliest skyscrapers providing a foundation for the newest generation of buildings that seemed to touch the sky While many architectural books focus on exterior beauty this book examines each building s unique inner structure Maps land photos guide the reader through this outdoor architectural museum Four Landmark Buildings in Chicago's Loop Harry Weese and Associates, 1978 Chicago in and Around the Loop Gerard R. Wolfe, 2004 Along the Chicago river The magnificent mile and streeterville South of the loop printers row Grant park to the museum campus **Four Landmark Buildings in Chicago's Loop** Harry Weese and Associates, 1978 *Chicago's Loop* Janice A. Knox, Heather Olivia Belcher, 2002 Chicago s famed Loop is said to have gotten its name from the route of a cable car that looped the central business district in 1882 Since then much has changed This book captures the evolving urban landscape of the Chicago Loop with a collection of over 100 vintage images each coupled with its contemporary counterpart Few cities are as renowned for their architecture as is Chicago The impressive skyscrapers in and around the Loop give Chicago a skyline second to none And with more than three dozen historic landmarks the Loop is home to many of the city s most recognized structures From a 19th century trading post to the great financial business and entertainment districts of the 21st century Chicago s Loop Then and Now documents the growth and changes of the Windy City s downtown An Early Encounter with Tomorrow Arnold Lewis, 1997 Chicago in the late nineteenth century was the wonder city of the Western world its famous Loop the laboratory in which to study innovative commercial architecture There Old World assumptions were overthrown by New World realities as the past was discounted the present glorified and the future eagerly anticipated **The Architecture of Modern American Synagogues, 1950s-1960s** Anat Geva, 2023-12-14 In the aftermath of World War II the United States experienced a rapid expansion of church and synagogue construction as part of a larger religious boom The synagogues built in that era illustrate how their designs pushed the envelope in aesthetics and construction The design of the synagogues departed from traditional concepts embraced modernism and innovations in building technology and evolved beyond the formal rational style of early 1950s modern architecture to more of an expressionistic design The latter resulted in abstraction of architectural forms and details and the inclusion of Jewish art in the new synagogues The Architecture of Modern American Synagogues 1950s 1960s introduces an architectural analysis of selected modern American synagogues and reveals how they express American Jewry s resilience in continuing their physical and spiritual identity while embracing modernism American values and landscape In addition the book contributes to the discourse on preserving the recent past e g mid 20th century architecture While most of the investigations on that topic deal with the brick mortar challenges this book

introduces preservation issues as a function of changes in demographics in faith rituals in building codes and in energy conservation As an introduction or a reexamination The Architecture of Modern American Synagogues 1950s 1960s offers a fresh perspective on an important moment in American Jewish society and culture as reflected in their houses of worship and adds to the literature on modern American sacred architecture The book may appeal to Jewish congregations architects preservationists scholars and students in fields of studies such as architectural design sacred architecture American modern architecture and building technology Post WWII religious and Jewish studies and preservation and conservation
