

THE BRANCHES OF THE MILITARY

The United States military has six individual branches. Though they have common goals, each is a different organization with unique purposes, requirements, and rules.

<https://usmilitary.com/which-branch-of-the-military/>

ARMY

- Serves as a ground force providing protection for U.S. interests and stability here and abroad
- Some people may serve part-time in the Army reserve or the Army National Guard
- The rest are in full-time positions, which last from two years up to a whole career
- Some people enlist and work their way up, while others participate in programs that allow them to become officers after they finish

MARINE CORPS

- Members train in combat both on land and at sea
- Like the Army, they focus primarily on warfare but are versatile and trained to fight in a variety of conditions
- The service commitment for Marines is at least four to six years, which is longer than some other branches
- Eligible applicants can be stationed anywhere throughout the world

NAVY

- The United States Navy originated in 1775, with a goal to protect America's interests on water and near shores
- People who join the Navy and complete a course of training may be stationed in one of almost 300 ships, or in a nearby port
- While many members of the Navy participate in active warfare when appropriate, others work in support roles on ships or on U.S. territory
- Elite teams include the Navy SEALs and Navy Divers, which require specialized training and placement within a highly competitive unit
- Navy sailors may be stationed almost anywhere in the world, depending on their positions

AIR FORCE

- This highly competitive branch of the U.S. military is the most recently created branch, but also one of the most versatile
- People may serve in a variety of capacities or organizations and can be deployed virtually anywhere in the world, doing so much more rapidly than other branches
- In order to qualify for the Air Force, interested applicants must complete a test called the Armed Services Vocational Aptitude Battery
- For the most coveted roles, people generally must score very high on this test
- In exchange for this qualification, people may be able to secure jobs that are similar to civilian work
- This, along with a higher rate of pay, is partly why this branch is so competitive

SPACE FORCE

- With only about 2,500 active-duty members, the Space Force is the smallest branch of the armed services
- Although the primary aim of the Space Force is to protect Americans against competing interests on Earth, there are other goals for the service
- These include researching and investigating space mobility, analyzing the ability to transmit information through space, and developing resources for the protection of the U.S. and allied countries
- It also includes increasing capacity for defense and improving survivability in space

COAST GUARD

- The Coast Guard provides security, defense, search and rescue, and law enforcement
- The Coast Guard can be an excellent career choice for people who want to remain in the U.S. but serve their country
- Because this branch emphasizes law enforcement, many people consider it good preparation for similar careers in police or security organizations
- People who serve in the Coast Guard must be very good swimmers, a skill they have to maintain regularly
- The members who perform search and rescue enjoy one of the most elite positions available in the military

Someone looking to enlist in the United States military should consider which branch is the best for them. With the above information, people will understand the differences between each branch.
