

The Architecture Of Gunnar Birkerts

Kay Kaiser, Gunnar Birkerts

The Architecture Of Gunnar Birkerts:

The Architecture of Gunnar Birkerts Kay Kaiser, 1989 Gunnar Birkerts has designed some of America's most innovative and distinctive architecture. A member of the Modern Movement's postwar generation, he has shown that modernism can accommodate lyrical, emotional, dynamic, and regional influences within its abstract construct. His design concepts, which grow from the individual character of site and client, defy stylistic categorization. Over his career, he has won more than fifty major awards. *The Architecture of Gunnar Birkerts* not only presents the architect's work but also explores the influences of his background, design methodology, and philosophy on his buildings. From book flap: **The Architecture of Gunnar Birkerts** Kay Kaiser, Gunnar Birkerts, 1989

Gunnar Birkerts Gunnar Birkerts, 1985 Gunnar Gunivaldis Birkerts was born in Riga, Latvia, on January 17, 1925. At the end of World War II, he fled Latvia ahead of the advancing Soviet Army and made his way to Germany. He received diplomas in engineering and architecture from Stuttgart's technical university. He emigrated to the United States in 1949. He worked for the Chicago firm Perkins Will for two years before joining Eero Saarinen's firm. In 1956, he joined Yamasaki Leinweber Associates. In 1959, he and his colleague Frank Straub formed their own firm, Birkerts Straub. In 1963, he started his own firm, Gunnar Birkerts Associates. He designed the Contemporary Arts Museum in Houston, the Federal Reserve Bank in Minneapolis, the American embassy in Caracas, and the Latvian National Library in Riga. He taught architecture at the University of Michigan from 1959 to 1990. He wrote several books, including *Subterranean Urban Systems*, *Gunnar Birkerts Buildings: Projects and Thoughts* (1960, 1985), and *Process and Expression in Architectural Form*. In 1981, he received the Arnold W. Brunner Memorial Prize in Architecture. He died on August 15, 2017, at the age of 92. Bowker Author Biography

Process and Expression in Architectural Form Gunnar Birkerts, 1994

Generously illustrated with concept development sketches, as well as site plans, section drawings, full schematics, and photographs of finished buildings, this engaging volume focuses on organic synthesis: the creative process that is architect Gunnar Birkerts's methodology and philosophy. Birkerts likens his organic approach to listening to music: the music must be heard as it unfolds; an attempt to perceive it all at once would reduce it to noise. Organic synthesis occurs as all aspects of a project present themselves: the building site, the building program, and budget, available materials, and technologies, emotional or intuitive content revealed through architect-client interaction.

Gunnar Birkerts and Associates William Marlin, 1982

Metaphoric Modernist Gunnar Birkerts, Sven Birkerts, Martin Schwartz, 2009 Latvian-born architect Gunnar Birkerts belongs to the second wave of modernists who arrived in the United States from abroad, a group that includes Kevin Roche and Cesar Pelli among others. This work presents his cultural perspectives, as well as his family insights, to bear offering a unique portrait of a life and career. Latvian-born architect Gunnar Birkerts belongs to the second wave of modernists who arrived in the United States from abroad, a group that includes Kevin Roche and Cesar Pelli among others. Educated at the Technische Hochschule in Stuttgart, Birkerts worked first with Eero Saarinen in his now legendary office in Bloomfield Hills.

Michigan and later was chief designer for Minoru Yamasaki. At that time both Saarinen and Yamasaki were developing their distinctive architectural signatures and building their international renown. Subsequently Birkerts established his own practice evolving a design process and a philosophy with its own original profile. His approach does not seek a right style for the job in the manner of Saarinen. From the first Birkerts work was tied to a program as well as a particular context, a place to the extent that it became expressive of the surrounding landscape and accommodating to the existing vernacular. Birkerts' designs from the Federal Reserve Bank in Minneapolis to the Corning Museum of Glass to the Houston Arts Museum and recently the Latvian National Library shows him exploring with ever greater resource and inventiveness the expressive possibilities of symbol and metaphor. Form he believes expresses function and does so with its own rich meaningful vocabulary. Birkerts uses visual metaphors to link program, client and landscape in a resonant solution. His methodology of using metaphor meaning as a first principle as a generator of design concept is unusual in the profession but it is vitally connected to his Latvian heritage and his family background as the son of a folklorist and writer. This heritage is given a new turn here for the biographical text of the book has been written by his son Sven Birkerts who is a noted literary critic and author of the influential book *The Gutenberg Elegies: The Fate of Reading in an Electronic Age*. He has also written a memoir *My Sky Blue Trades* which describes at some length his coming of age struggles with his architect father. Now years later Sven brings his cultural perspectives as well as his family insights to bear offering a unique portrait of a life and career. History and description are enlivened throughout by observations and reflections on the career, the destiny of this master of the expressive concept. The book is richly illustrated and complemented by descriptive assessments of the projects by Martin Schwartz who is an architect and writer and who teaches at Lawrence Technical University in Southfield, Michigan.

Gunnar Birkerts Gunnar Birkerts, 1983 **Gunnar Birkerts, First Recipient of the Plym Distinguished Professorship in Architecture, University of Illinois at Urbana-Champaign**, 1983 [An Architecture of Immanence](#)

Mark A. Torgerson, 2007-01-22. Torgerson begins by discussing God's transcendence and immanence and showing how church architecture has traditionally interpreted these key concepts. He then traces the theological roots of immanence's priority from liberal theology and liturgical innovation to modern architecture. Next Torgerson illustrates this new architecture of immanence through particular practitioners focusing especially on the work of theologically savvy architect Edward Anders Svik. Finally he addresses the future of church architecture as congregations are buffeted by the twin forces of liturgical change and postmodernism. **Gunnar Birkerts** Jānis Dripe, 2015. The building of the National Library of Latvia is a landmark of the capital city of Riga, a spatial symbol and architectural icon created by one of the 20th century renowned modernists, the Latvian-born American architect Gunnar Birkerts. It is one of the largest cultural buildings in Northern Europe in the 21st century and acquired a symbolic and meaningful name: The Castle of Light. The pyramidal structure which rises 68 meters high is a place of cognition equipped with state-of-the-art technology where up to 8 million units of national printed
