The Arms Trade With The Third World:

The Arms Trade with the Third World Stockholm International Peace Research Institute,1971 **Security and Economy in the Third World** Nicole Ball,2014-07-14 Nicole Ball brings the effects of security expenditure to the center of that debate examining in detail how the potential negative consequences on development outweigh the potential positive effects Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Air Force Journal of Logistics** ,1983 **The A to Z of the Non-Aligned Movement and Third World** Guy Arnold,2010-04-06 During the long period when the world was divided between East and West and the Cold War threatened to turn hot with devastating consequences the Non Aligned Movement was one of the few institutions that consistently sought other outcomes not in its own interest but that of all humanity Consisting of over 100 states that are free of any formal alliances with any major power bloc the Non Aligned Movement provides aid to those countries striving to gain independence eliminate poverty and develop their economy Just what the Non Aligned Movement and Third World sought and at times achieved is set forth in this unique reference work with its over 200 cross referenced dictionary entries on important persons organizations and conferences as well as the key issues and concepts Entries are supported by an extensive chronology an introduction to the movement and a bibliography for further research **Multinational Corporations And The Third World** C.J. Dixon,2019-03-06 This book an outcome of the conference in 1983 held at the University of Birmingham examines the varied roles played by multinational corporations in the economies of the Third World countries and concentrates more closely on regional national sectoral or corporate levels **The End of the Third World** Guy Arnold,2016-07-27 The end of the Cold War has changed all the parameters of our world and not least of these is the relationship between the rich developed North and the poor developing South Without the compulsions of the Cold War and the need for its two sides to seek allies in the South the Third World will now find itself increasingly marginalised by a West which only sees it as a series of depressed trading partners to be managed or ignored depending upon circumstances now completely beyond the South s control while the West itself appears to have lost both its purpose and its way as the former communist bloc disintegrates *Militarization, Internal Repression and Social Welfare in the Third World* Miles D Wolpin,2023-10-27 First published in 1986 Militarization Internal Repression and Social Welfare in the Third World argues that there is a relationship between the level of a regime s military spending and the degree of internal repression it inflicts This book presents a detailed empirical analysis of this situation and presents the results of more than three dozen researchers who have published comparative or case studies of the substitution effects

of military expenditures in socio economic areas While the primary concern is with the Third World the book also analyses the costs to advanced capitalist and to state socialist systems and discusses their role in further militarization This book will be of interest to students of political science international relations colonialism and area studies **Military Industry and Regional Defense Policy** Timothy D. Hoyt, 2017-07-05 Military Industry and Regional Defense Policy re examines military industrialization in the developing world focusing on policy making in producer states and the impact of security perceptions on such policy making Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the three most powerful regional powers in the Cold War era he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective **Building Global Security Through Cooperation** Joseph Rotblat, John P. Holdren, 2012-12-06 1989 was by any standards an extraordinary year the year in which the Cold War ended However although much has changed much remains unresolved or not changed at all Even though the rationale for the huge military forces has been removed from the East West relationship these forces still retain a tremendous potential to do harm Moreover threats to peace may grow along North South and South South axes An example of such a threat is the rapid growth in size and sophistication of military arsenals in the South The contributions to this volume make it clear that the problems of East and West North and South are inter twined Security can be gained only through cooperation The contributors who come from widely differing geographical cultural and political backgrounds all share the Pugwash tradition of scientific objectivity **The DISAM Journal of International Security Assistance Management** , 1994
