Marked Women Russell Campbell, 2006-04-05 Julia Roberts played a prostitute famously in Pretty Woman So did Jodie Foster in Taxi Driver Jane Fonda in Kluge Anna Karina in Vivre sa vie Greta Garbo in Anna Christie and Charlize Theron who won an Academy Award for Monster This engaging and generously illustrated study explores the depiction of female prostitute characters and prostitution in world cinema from the silent era to the present day industry From the woman with control over her own destiny to the woman who cannot get away from her pimp Russell Campbell shows the diverse representations of prostitutes in film Marked Women classifies fifteen recurrent character types and three common narratives many of them with their roots in male fantasy The Happy Hooker for example is the liberated woman whose only goal is to give as much pleasure as she receives while the Avenger a nightmare of the male imagination represents the threat of women taking retribution for all the oppression they have suffered at the hands of men The Love Story a common narrative represents the prostitute as both heroine and anti heroine while Condemned to Death allows men to manifest in imagination only their hostility toward women by killing off the troubled prostitute in an act of cathartic violence The figure of the woman whose body is available at a price has fascinated and intrigued filmmakers and filmgoers since the very beginning of cinema but the manner of representation has also been highly conflicted and fiercely contested Campbell explores the cinematic prostitute as a figure shaped by both reactionary thought and feminist challenges to the norm demonstrating how the film industry itself is split by fascinating contradictions

After the American Century Brian T. Edwards,2015-12-01 When Henry Luce announced in 1941 that we were living in the American century he believed that the international popularity of American culture made the world favorable to U S interests Now in the digital twenty first century the American century has been superseded as American movies music and video games are received understood and transformed How do we make sense of this shift Building on a decade of fieldwork in Cairo Casablanca and Tehran Brian T Edwards maps new routes of cultural exchange that are innovative accelerated and full of diversions Shaped by the digital revolution these paths are entwined with the growing fragility of American soft power They indicate an era after the American century in which popular American products and phenomena such as comic books teen romances social networking sites and ways of expressing sexuality are stripped of their associations with the United States and recast in very different forms Arguing against those who talk about a world in which American culture is merely replicated or appropriated Edwards

Oliver Boyd Barrett,David Herrera,James Baumann,2011-03 This book investigates representations of the Central Intelligence Agency CIA in Hollywood films and the synergies between Hollywood product U S military defense interests and U S foreign policy As probably the best known of the many different intelligence agencies of the US the CIA is an exceptionally well known national and international icon or even brand one that exercises a powerful influence on the imagination of people throughout the world as well as on the creative minds of filmmakers The book examines films sampled from five decades the 1960s 1970s 1980s 1990s and 2000s and explores four main issues the relative prominence of the CIA the extent to which these films appeared to be overtly political the degree to which they were favorable or unfavorable to the CIA and their relative attitude to the business of intelligence A final chapter considers the question do these Hollywood texts appear to function ideologically to normalize the CIA If so might this suggest the further hypothesis that many CIA movies assist audiences with reconciling two sometimes fundamental opposites often gruesome covert CIA activity for questionable

goals and at enormous expense on the one hand and the values and procedures of democratic society on the other This interdisciplinary book will be of much interest to students of the CIA Intelligence Studies media and film studies US politics and IR Security Studies in general
