Making Adult Stepfamilies Work Grace Gabe, Jean Lipman-Blumen, 2013-09-03 If you are among the growing number of families in which adults with grown children have remarried later in life you are probably familiar with the conflicts and complicated emotional dynamics that can result. Based on in depth research by a psychiatrist and a sociologist *Step Wars* trains a revealing lens on the sources of these conflicts and teaches the skills required to manage them. Topics include Your Children and Mine Can They Ever Become Ours What Will Happen to the Family Home Who Should Inherit My Property Managing Financial Conflict Between Generations Health and Illness Thank Heaven the Caretaker Is on Duty The Grandchildren Pawns or Bridges Written for both the couple getting married as well as their adult children *Step Wars* is a road map for happily surviving remarriage later in life.

Beer, 2017-07-28 If present trends in divorce and remarriage continue before the end of the century the stepfamily will outnumber all other types of family in the United States In 1980 one out of five children under the age of eight were living in stepfamilies and there were at least two million households in which the children were related only by marriage stepsiblings or who shared only one parent in common half siblings How are these new kinds of family relationships working out In particular how are children faring in these kinds of families There are a number of books on the successes and difficulties of second marriages that involve children but most of these look at problems from the perspective of one or both spouses Popular literature in particular had emphasized the problem of the new spouse who inherits a family without really focusing on the relationships among stepsiblings Strangers in the House focuses on the children of these marriages both stepsiblings and half siblings and the relationships among them with the parents It is a report on how they are faring drawn from the results of original research by the author case studies of stepfamilies interviews with stepsiblings and half siblings a survey of members of the Stepfamily Association of America and participation in three step family self help groups The result is a vivid portrait of nontraditional family constellations that provides an overview of changes in American families the increased divorce and remarriage rates and how stepfamilies differ from other families Beer identifies major problem areas in stepsibling relations and shows how youngsters are adapting to these special situations He examines classic rivalries over love attention space and property shows how these are worked out within these special circumstances The book concludes with an overview of the dynamics of sibling relations in these special families and analyzes how the stepsibling subsystem fits into the large
