Stenographers To Power Media And Propaganda:

Stenographers to Power David Barsamian,1992

Mass Media, Mass Propaganda Anthony DiMaggio,2008-04-28

Mass Media Mass Propaganda analyzes a wide range of issues domestic and international concerning American and global news coverage of the U S War on Terror Topics reviewed include media coverage of the invasion and occupation of Iraq the proliferation of weapons of mass destruction Iraqi civil war and resistance to occupation September 11th and Operation Enduring Freedom in Afghanistan human rights violations in Iraqm domestic anti way dissent and censorship and potential future targets in the War on Terror This work approaches the study of media through a political economy analysis examining the ways in which the American corporate media works to reinforce official views and propaganda and the ways in which it challenges official pro war platforms A comparative approach is taken in contrasting the American mass media with other media institutions from the Progressive Left American press the British and Australian press and Arab electronic media Major models analyzed and evaluated throughout this work include the Propaganda Model developed by Noam Chomsky and Edward Herman and the Indexing Model elaborated upon by scholars such as W Lance Bennett Steven Livingston and Jonathan Mermin The Discourse of Propaganda John Oddo,2019-01-18 In the early 1990s false reports of Iraqi soldiers in Kuwait allowing premature infants to die by removing them from their incubators helped to justify the Persian Gulf War just as spurious reports of weapons of mass destruction later undergirded support for the Iraq War in 2003 In The Discourse of Propaganda John Oddo examines these and other such cases to show how successful wartime propaganda functions as a discursive process Oddo argues that propaganda is more than just misleading rhetoric generated by one person or group it is an elaborate process that relies on recontextualization ideally on a massive scale to keep it alive and effective In a series of case studies he analyzes both textual and visual rhetoric as well as the social and material conditions that allow them to circulate tracing how instances of propaganda are constructed performed and repeated in diverse contexts such as speeches news reports and popular everyday discourse By revealing the agents inter texts and cultural practices involved in propaganda campaigns The Discourse of Propaganda shines much needed light on the topic and challenges its readers to consider the complicated processes that allow propaganda to flourish This book will appeal not only to scholars of rhetoric and propaganda but also to those interested in unfolding the machinations motivating America s recent military interventions

Handbook of Political Discourse Piotr Cap,2023-02-14 Synthesising diverse research avenues for politics discourse and political discourse this cutting edge Handbook examines the formative traditions current theoretical and methodological landscape and genres and domains over which political discourse extends **Media Bias, Perspective, and State**

Repression Christian Davenport,2010 This book examines information reported within the media regarding the interaction between the Black Panther Party and government agents in the Bay Area of California 1967 1973 Christian Davenport argues that the geographic locale and political orientation of the newspaper influences how specific details are reported including

who starts and ends the conflict who the Black Panthers target government or non government actors and which part of the government responds the police or court Specifically proximate and government oriented sources provide one assessment of events whereas proximate and dissident oriented sources have another both converge on specific aspects of the conflict The methodological implications of the study are clear Davenport s findings prove that in order to understand contentious events it is crucial to understand who collects or distributes the information in order to comprehend who reportedly does what to whom as well as why

The Social Construction of International News Philo C. Wasburn,2002-11-30 Wasburn compares U S commercial news reports on a wide variety of events with those produced by the news media of several other nations The events include the Falklands War the Iran Iraq War the Tiananmen Square Uprising several political assassinations major trade disputes between the U S and Japan the Intifada U S presidential nominating conventions and a presidential inauguration Different patterns of coverage amount of attention given an event language used to describe an event selection of particular occurrences to characterize an event and descriptions of U S and international public opinion of the event are shown to reflect different political economic and strategic interests of nations historical contexts in which news was constructed national differences in values that influence the production of news and differences in historically specific relations between news media and the governments of their countries Attention is given to contrasts between the national image of the United States constructed by U S commercial news media and the images of the United States produced by various foreign news media This book will be of particular interest to scholars students and researchers involved with political communication journalism political science and political sociology

Media Communication James Watson,2016-01-08 This new edition of a popular book provides an overview of mass media in society today With illuminating examples and enhanced international coverage Watson covers the core areas for media and communication degrees as well as discussing hot topics such as the possibilities brought about by digital technology for citizen involvement in the media

The Political Economy of Dissent Peter Blunt,Cecilia Escobar,Vlassis Missos,2025-10-22 In 2020 Noam Chomsky asserted that the time to panic about the existential threats posed by nuclear war global warming and the stifling of informed debate in supposedly open and democratic societies was upon us and that it was the duty of concerned citizens to act accordingly Hastened by the lingering aftermath of the 2008 financial crisis the COVID 19 pandemic the proxy war in Ukraine the decline of US economic hegemony and increasing hostility between the US and China he concluded in early 2023 that unless the US could be persuaded to cooperate with its declared adversaries and capitalism could be overthrown or defanged there was little hope for survival The authors of this book argue that achieving these ends will depend greatly on effective individual and collective worldwide dissent The book analyses and exemplifies dissent in the main domains of institutionalised capitalist control and the manufacture of uninformed consent namely political economy education the media and IT work and trade unions the commons and communities and culture And thereby gives voice and hope to the

downtrodden and marginalised including indigenous peoples and those of the global south It provides an uplifting counter to the otherwise seemingly overwhelming expression of uninformed consent one that will inspire by example and be an antidote to the fear and defeatism instilled by capitalist intransigence indoctrination and control The book is addressed to students scholars and researchers primarily but its breadth of coverage authenticity and plain writing style will appeal to activists community organisers and concerned citizens both in industrialised countries and the global south *Sites of Genocide*

Adam Jones,2022-05-17 Genocide may be the most powerful word in the English language What is the significance and relevance of this formative concept today In an extraordinarily wide ranging collection of essays and interviews Adam Jones one of the world s leading genocide scholars explores the uses and controversies surrounding the term that Raphael Lemkin coined during the Second World War to describe and prohibit mass atrocities against defined human groups In a style that is learned but always accessible and engaging Jones addresses key historical and contemporary issues such as What were the motivations and proclaimed justifications for genocide in the long nineteenth century that shaped our modern world How can humanitarian interventions in genocide avoid sliding into new imperialism What are the connections between religion and genocide How can the gender variable in genocide perpetration and victimization be understood A wide range of historical and contemporary genocides and crimes against humanity from the eighteenth century slave rebellion in Haiti to Myanmar s destruction of the Rohingya and to the forms of structural and systemic violence that Jones argues should be encompassed by any global historical understanding of genocide Sites of Genocide is illustrated with photos from Jones s own collection and other sources It will be of interest to all students and scholars of human rights and for general readers seeking a point of entry to the rich and provocative debates in comparative genocide studies **Encyclopaedia of Propaganda** Robert

Cole,2022-03-24 The Encyclopedia of Propaganda examines all aspects of propaganda through history and is organized in an A to Z format The set defines the arenas in which propaganda is used such as politics war advertising and media pinpoints the political systems in which it is used such as Nazism Communism and McCarthyism and describes notable progenitors of propaganda and their works including Hitler and Mein Kampf Machiavelli and The Prince Sun Tzu and The Art of War and Plato and The Republic The Encyclopedia of Propaganda also examines noteworthy individuals who have employed propaganda to further their own agenda including Walt Disney Fidel Castro Jane Fonda the Rev Jerry Falwell Saddam Hussein Rush Limbaugh and Eleanor Roosevelt Organizations which have utilized propaganda in a systematic fashion are also included among them the Black Panther Party the Sandinista National Liberation Front and the People for Ethical Treatment of Animals This well organized easy to use reference should be a valuable research tool for students of world history politics and literature
