approach positions King's texts not simply as objects of interpretation that might yield latent meaning but as producers of meaning. King can certainly be read through the lens of the uncanny but this book also aims to consider the uncanny through the lens of King. Organised around specific elements of the uncanny that can be found in King's fiction this book explores the themes of death and the return of the dead, monstrosity, telepathy, inanimate objects becoming menacingly animate and spooky children. Popular texts are considered such as *IT*, *The Shining* and *Pet Sematary* as well as less discussed work including *The Institute*, *The Regulators* and *Desperation*. The book's central argument is that King's uncanny motifs offer insightful commentary on what is repressed in contemporary culture and insist on the failure of scientific rationalism to explain the world. King's uncanny imaginary rejects dualistic notions of an experiencing self in an inert physical world and insists that psychic experience is bound up with the environmental. This book will be of interest to students and scholars of contemporary and popular literature, gothic and horror studies and cultural studies.

A&R Pioneers Brian Ward, Patrick Huber, 2018-06-26 Association for Recorded Sound Collections Certificate of Merit for the Best Historical Research in Recorded Roots or World Music 2019. A R Pioneers offers the first comprehensive account of the diverse group of men and women who pioneered artists and repertoire (A R) work in the early US recording industry. In the process they helped create much of what we now think of as American roots music. Resourceful, innovative and at times shockingly unscrupulous, they scouted and signed many of the singers and musicians who came to define American roots music between the two world wars. They also shaped the repertoires and musical styles of their discoveries, supervised recording sessions and then devised marketing campaigns to sell the resulting records. By World War II they had helped redefine the canons of American popular music and established the basic structure and practices of the modern recording industry. Moreover, though their musical interests, talents and sensibilities varied enormously, these A R pioneers created the template for the job that would subsequently become known as record producer. Without Ralph Peer, Art Satherley, Frank Walker, Polk C Brockman, Eli Oberstein, Don Law, Lester Melrose, J Mayo Williams, John Hammond, Helen Oakley Dance and a whole army of lesser known but often hugely influential A R representatives, the music of Bessie Smith and Bob Wills of the Carter Family and Count Basie of Robert Johnson and Jimmie Rodgers may never have found its way onto commercial records and into the heart of America's musical heritage. This is their story.
