Slovenia ,1999 *Slovenia: Economic Transformation and EU Accession* World Bank,1999 **Slovenia: Economic Transformation and EU Accession** ,1999 **Slovenia** ,1999 *Slovenia* ,1999 *Slovenia* Banco Mundial,1999
Slovenia World Bank,1999 *Eu's Eastward Enlargement, The: Central And Eastern Europe's Strategies For Development* Yoji Koyama,2014-12-09 Owing to the global financial crisis of 2007 2009 and subsequently the Eurozone crisis the accession of Central and Eastern European countries to the European Union and the Eurozone has not been an easy one The EU s Eastward Enlargement analyses challenges that these countries currently face in their pursuit of economic self reliance Covering a period from the second half of the 1980s to the present Yoji Koyama provides unique and objective analyses of the European Union and the Euro system from a non European s perspective He offers a detailed reexamination of the fundamental problems of the European Union which in turn have affected the autonomous development of countries such as Poland the former Yugoslavia Albania and the Baltic States This book is a useful addition to the scholarship available on the Euro system and Central and Eastern European countries It will help readers gain a more holistic understanding of the ongoing Eurozone crisis and the future of the Eurozone project **Welfare State Transformation in the Yugoslav Successor States** Marija Stambolieva,2016-04-28 Welfare states are the product of economic political and social interactions and undergo changes as these interactions transform Existing welfare state theories mainly tend to explain the emergence and development of the welfare state in the western industrialized and capitalist world While the states of Central and Eastern Europe have recently been integrated in the academic discourse the countries of the former Yugoslavia have been predominantly excluded from comparative analysis Issues of nationalism and ethnic polarization have been prevalent there while socio economic issues have been put on the back burner This book explores what happened to the strong social states and relatively equal societies which existed in Slovenia Croatia Serbia and Macedonia and looks into what accounts for these diverse outcomes By investigating the applicability of the theories on welfare state development and typologization it fills in the gap in the welfare state literature It offers an original typology of social citizenship that takes into account the diversity of welfare policy formations across the region The aim of this typology is not to compete with existing ones but rather to offer a framework for better understanding of states that do not necessarily fit into known explanatory categories In a global context of changing economic circumstances and contending political responses macroeconomic policy and welfare state reform become order of the day By featuring the ways that states adjust to new pressures this book s arguments may come in handy to those trying to make sense of the crisis and the powers that drive the policy solutions **Comparative Economics in a Transforming World Economy** John Barkley Rosser,2004 The second edition of an innovative undergraduate textbook in Comparative Economic Systems that goes beyond the traditional dichotomies **Small States and the European Union** Lino Briguglio,2016-06-10 The Economies of European Union Small Member and Candidate

States deals with the small states and candidate states of the EU with a focus on their economic structure and performance and the impact of EU membership past actual and potential on the economy The small states to be covered are those with a population of 3 million or less namely Cyprus Estonia Iceland Latvia Lithuania Luxembourg Malta Macedonia Montenegro and Slovenia This title adds to the literature on the EU on regional integration generally and on small states It delves into the special constraints of small economic size and examines why and how the small states of Europe manage to compete albeit not without difficulty with the larger states in the block where free trade prevails The book answers the following research questions What are the special economic development constraints faced by the small states of the EU What policy options have been used by or are available to these small states to address these constraints How can the economic resilience and competitiveness of these states be enhanced Has EU membership been mostly advantageous for these small states What are the economic prospects for these states as EU member states The book is aimed primarily for students of EU affairs and of regional integration in general It will also be useful for students of subjects relating to small states It may also appeal to policy makers of small states and to officials of international and regional organisations that have a constituency that includes small states

Progress Toward the Unification of Europe Helena Tang, 2000-01-01 Ten countries of Central and Eastern Europe and the Baltic CEECs are candidates to join an enlarged European Union EU in the years to come The ten are Bulgaria the Czech Republic Estonia Hungary Latvia Lithuania Poland Romania the Slovak Republic and Slovenia This enlargement will bring many opportunities to the both the EU and the candidate countries For the EU it will bring enhanced weight and influence For the candidate countries it should mean an improvement of their long term growth prospects by providing access to an open single market The accession process is providing the impetus for the acceleration of much needed economic political institutional and social reforms in some of the CEECs as they strive to meet EU membership requirements The key for the CEECs is to achieve sustained high long term growth in order to meet their ultimate objective of accession The EU has already concluded agreements with the CEECs which went beyond the narrowly conceived ideas of market access to include the alignment of the CEEC economic system with that of the EU's This report sets out the future agenda for the successful integration of the CEECs into an enlarged EU The first priority is for each

country to complete its own process of transition to a free market democratic state In short this will mean that many will have to address their fiscal challenges and ensure fiscal sustainability the challenge of global financial integration opening of their capital accounts the strengthening of their administrative capacity the reduction of unemployment and the promotion of social inclusion
