Smart Guys:

Why Smart Men Marry Smart Women Christine B. Whelan, 2006-10-17 For years it's been common knowledge that once a woman hits thirty her chances of finding a husband diminish to the point of despair. That men are intimidated by a woman's career success preferring docile helpmates to ambitious achievers. That women are biologically driven to seek a strong provider. That the higher a woman's IQ the less likely she is to marry let alone have babies leaving single successful women to ask themselves: Are men intimidated by smart women? In *Why Smart Men Marry Smart Women* Christine B. Whelan shatters the myth that high achieving women are at a disadvantage in the marriage market. There's good news for the millions of American SWANS (Strong Women Achievers) No Spouse: that today's smart successful women marry at the same rates as all other women and that more income and education may in fact increase a woman's chances of marriage. What's more as Dr. Whelan shows through newly released U.S. Census data, a large scale Harris Interactive survey commissioned especially for this book plus extended interviews conducted in cities nationwide, this profound demographic shift shows every sign of progressing. That means that the success penalty that has endured for generations is as soon as 2010 destined for the history books. Accomplished daughters, sisters and friends not to mention their mothers can finally stop worrying that the twin pinnacles of personal and professional happiness are inherently unattainable. In fact smart men do marry SWANS. Ninety percent of high achieving men surveyed want a woman who is as intelligent or more intelligent than they are. And two thirds of men said they believed smart women make better mothers. Pairing cutting edge research with sound advice Dr. Whelan brings to mind what smart women everywhere have long known in their hearts: that the goal is not just to get married but to have a good marriage and to lead a fulfilled life. *Understanding Women* Romy Miller, 2017-11-24 Romy Miller is a woman. Theory and Reality in Financial Economics George M. Frankfurter, 2007 The current literature on financial economics is dominated by neoclassical dogma and supposedly the notion of value neutrality However the failure of neoclassical economics to deal with real financial phenomena suggests that this might be too simplistic of an approach This book consists of a collection of essays dealing with

financial markets imperfections and the inability of neoclassical economics to deal with such imperfections Its central argument is that financial economics as based on the tenets of neoclassical economics cannot answer or solve the real life problems that people face It also shows the direct relationship between economics and politics OCo something that is usually denied in academic models given that science is supposed to be value neutral In this thought provoking and avant garde book the author not only exposes what has gone wrong but also suggests reforms to both the academic and the political economic systems that might help make markets fair rather than efficient Drawing on interdisciplinary fields this book will appeal to readers who are interested in finance economics business the political economy and philosophy Sample Chapter s Foreword 37 KB Chapter 1 Method and Methodology 146 KB Contents Method and Methodology What is All Efficiency Still Autistic Finance The Young Finance Faculty s Guide to Publishing Prolific Authors in Finance For Profit Education An Idea That Should be Put to Rest Weep Not for Microsoft Monopoly s Fatal Exception The Socio Economics of Scandals Desperately Seeking Toto And Now for Something Entirely Different After the Ball Capitalism or Industrial Fiefdom The Theory of Fair Markets TFM Toward a New Finance Paradigm Readership Graduate students of finance students of economics economic methodology and philosophy of science [Stone City](#) Mitchell Smith,2012-07-10 A thrilling and gripping page turner that serves as both a sociological study of prison life and a metaphor for contemporary America In a prison of youthful hardcore criminals a college professor convicted of killing a young girl while driving drunk teaches other inmates reading skills A series of killings prompts officials to coerce Bauman to track down the killer His quest takes readers into the web of corruption that is inherent in a big state prison
