**Innovation Capabilities: Affirming an Oxymoron?** Tor Helge Aas, Karl Joachim Breunig, 2017-01-01 The relationship between resources and capabilities and performance has been discussed since Edith Penrose addressed the mechanisms behind the growth of the firm. Penrose 1959. Early contributions to this area of research suggest that valuable and inimitable resources and capabilities are the primary sources of superior performance and sustained competitive advantage. Barney 1991, Wernerfelt 1984. While more recent contributions suggest that the ability to change and reconfigure resources and capabilities, dynamic capabilities, are the most important for performance, especially when the market is unstable. Teece 2014, Teece, Pisano, Rubera, Guan, Hertog, van der Aa, Wang, Lu, Yam, Lo, Tang, Lau 2011. But despite these important advances, there is still a lack of consensus in the literature and a pressing need to clarify what type of resources and capabilities drive innovation in different contexts. Lidiya Robert 2014 and how these capabilities are developed and utilized. Helfat, Peteraf 2003.

**Managing Value Co-creation in**

**University-Industry Partnerships** Rafal Dudkowski, 2021-01-23 This book discusses how academic institutions can play a principal role in companies' innovation strategy. The characteristics of University-Industry collaboration are strongly related to the social aspect of the activity of collaborating agents oriented towards a common object of work. To analyze this phenomenon, the author applies one of the concepts from the Practice Based Approach, namely the concept of the Activity Network, to understand the collaboration process of R D activities in a Nordic Telia and Swiss Swisscom Telecom Companies developing innovative products. The author focuses on four phases of University-Industry innovation partnership building: identification, selection, formation, and navigation. The study shows the interactions between individuals, the contexts in which they act, and explores ways in which collaborative value co-creation is managed. This pioneering research offers new theoretical insights and managerial implications on how these dynamics influence innovation in companies. It will thus be invaluable to international scholars, researchers of R D and innovation, as well as business managers.
