The Gulf Wars Documents And Analysis:

The Gulf Wars, Documents and Analysis Abdul Gafoor Abdul Majeed Noorani, 1991 **US Foreign Policy and the Gulf Wars** Ahmed Ijaz Malik, 2014-12-09 The US led coalition which launched an invasion of Iraq on 20 March 2003 led to a decade long military presence in the country In the run up to that invasion many comparisons were made with the 1991 Gulf War Ahmed Ijaz Malik takes these two instances of military intervention by Republican US governments to highlight how the official discourse of leaders and decision makers has an impact on foreign policy and its results By taking these two examples he examines how discourse affects real events and the extent to which the legacy of the Cold War has influenced the decisions which are made at the upper echelons of the US government US Foreign Policy and the Gulf Wars critically analyses the post Cold War liberal cosmopolitan and realist discourses related to these two instances of US military intervention Using an approach which Malik labels critical realism this book examines the ways in which discourses often act as ideological covers for material interests whilst still not holding a deterministic view whereby these interests alone shape policies From this perspective this book assesses the themes of Just War humanitarianism and cosmopolitanism It furthermore uses the approach of critical realism to engage with a variety of arguments on the emerging role of the US as they were displayed in academic discourses and other intellectual contributions around each of the 1991 and 2003 wars Malik relates these discussions to an analysis of the official discourses documents and policies displayed prior to the 1991 and 2003 wars as well as to an examination of the resulting actual conduct Since the implications of the US military presence in the Middle East are so central to the study of International Relations and Security Studies this book will be invaluable for specialists in these disciplines as well as for those interested in policy formation and the wider Middle East *Examining the Status of Gulf War Research and Investigations on Gulf War Illnesses* United States. Kerton-Johnson,2010-09-13 This book examines the justifications for and practice of war by the US since 1990 and examines four case studies the Gulf War Kosovo Afghanistan and Iraq The author undertakes an examination of presidential speeches and public documents from this period to determine the focal points on which the respective presidents based their rhetoric for war The work then examines the practice of war in the light of these justifications to determine whether changes in justifications correlate with changes in practice In particular the justificatory discourse finds four key themes that emerge in the presidential discourses which are tracked across the case studies and point to the fundamental driving force in US motivations for going to war The four key themes which emerge from the data are international law or norms human rights national interest and egoist morality similar too but wider than exceptionalism This analysis shows that 9 11 resulted in a radical shift away from an international law and human rights focused justificatory discourse to one which was overwhelmingly dominated by egoist morality justifications and national interest This book will be of much interest to students of US foreign policy humanitarian intervention Security Studies and IR theory
