The Heart Test:

Rs. 200/\$20 ECG Test, 1 of 3 Simple Noninvasive Heart Tests, Can Add 15-30 Years to Our Life - English Dr. S. Om Goel (MD / DM USA), 2020-10-27 Why it is very important to read this book Answer is it is very important to read this book because Heart health is very important to us Heart attack or sudden death from the heart attack has become so rampant in India It is affecting more and more youngish male population Women have some protection from the heart attack until they are in their reproductive age but they still have some amount of risk Our recommendation is to start screening all the males at age 30 This will give us a baseline And continue every five years with three most important simple noninvasive not at all costly Tests If all these three tests are normal then I can give you in writing that you will not have heart attack for the next five years Statistically it is not possible Why these three tests are important These tests are important because all these three different tests give us complementary information As far as ECG EKG is concerned it gives us all the information about the electrical conductivity of the heart and our ECG is like our fingerprint I can guarantee that if you take your ECG every year and put one above the other they will be exactly the same ECG helps us to understand the function of the two electrical nodes in our heart which control the rhythm and the rate of the rhythmic contraction and relaxation of the heart We all know that in a heart attack we immediately do ECG and if you are having a heart attack you can see changes in the ECG we can pretty much figure it out But why to wait for that point when we are really having heart attack because we may not have more than 5 to 10 minutes to recover from the heart attack and if our brain does not get blood and oxygen for several minutes our brain is never going to come back even though if our heart comes back and we may not be alive anymore Since we will never have 5 minutes so our hope is that by doing three simple tests we can really statistically almost 100% anticipate what is going to happen over next five years and if we see any negative information we can always fix it in time seeking the help from the best heart doctors but we need information and time

The Heart Truth: Everything you Wanted to Know About Prevention, Treatment and Reversal of Heart Disease Dr Aashish Contractor, 2024-07 AN EXHAUSTIVE GUIDEBOOK ON HOW TO TAKE CARE OF YOUR HEART WRITTEN IN SIMPLE AND EASY TO UNDERSTAND LANGUAGE In The Heart Truth Dr Aashish Contractor the leading authority in preventive cardiology and rehabilitation describes how you can treat rehabilitate and prevent heart ailments From problems of the heart to tests that one can do the risk factors surgery recovery reversal of heart disease medication nutrition and exercise this is an exhaustive guide specifically for the layperson Written in a simple lucid manner with real life examples this book will empower you with the knowledge required to take care of your heart As Dr Contractor who has over eighteen years of experience and has helped over ten thousand patients says taking care of the heart is not rocket science rather it s all about simple steps done consistently Whether you have suffered from a heart condition are at high risk want to prevent heart disease or just want to keep your heart fit and healthy this book is a must read

3 Main Heart Tests to Add 30 More Years to Life Dr. S. Om Goel

(MD / DM USA),2020-03-03 This book covers information on the following points What are the three most important tests for our heart What really happens when we are having a heart attack What percentage of blockage leads to chest pain or heart attack Why age 35 for males in India is at high risk of heart disease Nothing can take your life within 5 minutes except the heart attack **The Complementary Therapist's Guide to Conventional Medicine E-Book** Clare

Stephenson,2011-07-26 The Complementary Therapist's Guide to Conventional Medicine is a unique textbook for students and practitioners of complementary medicine offering a systematic comparative approach to Western and Eastern medicine Practitioners of complementary medicine increasingly find themselves working alongside conventionally trained doctors and nurses and it is vital for them to develop a core understanding of conventional medical language and philosophy The book is designed as a guide to understanding conventional medical diagnoses symptoms and treatments whilst also encouraging the reader to reflect on and translate how these diagnoses may be interpreted from a more holistic medical perspective Throughout the text the practitioner student is encouraged to see that conventional and more holistic interpretations are not necessarily contradictory but instead are simply two different approaches to interpreting the same truth that truth being the patient's symptoms After introductory sections on physiology pathology and pharmacology there follow sections devoted to each of the physiological systems of the body In these the physiology of each system is explored together with the medical investigation symptoms and treatments of the important diseases which might affect that system As each disease is described the reader is encouraged to consider the corresponding Chinese medical perspective The textbook concludes with chapters relating specifically to dealing with patients in practice In particular these focus on warning signs of serious disease supporting patients on medication and ethical issues which may arise from management of patients which is shared with conventional practitioners The book also offers a detailed summary of Red Flag symptoms which are those which should be referred for Western medical investigation or emergency medical treatment and also a guide to how patients can be safely supported in withdrawing from conventional medication when this is clinically appropriate Those wishing to use the text for systematic study can make use of the question and problem solving approach offered on the accompanying CD to which references to self study exercises appear at regular stages throughout the book This means that the text can be easily adapted to form the basis of a study course in clinical medicine for students of complementary medicine In addition to the self testing questions and answers the supporting CD also contains checklists for revision and full colour illustrations ABOUT THE AUTHOR Clare Stephenson is a qualified medical practitioner who worked in hospital medicine general practice and public health medicine for a number of years before training in Traditional Chinese Medicine TCM and acupuncture Over the course of a decade she developed and taught an undergraduate course for students of Chinese medicine on Western medicine and how it relates to TCM She is particularly committed to encouraging communication and understanding between practitioners of different health disciplines She currently works as a GP in Oxfordshire Approx 734 pages **The**
