Children's Books in Print, 1993 *German books in print*, 2003 *Forthcoming Books* Rose Arny, 2002 *Classicisms in the Black Atlantic* Ian Moyer, Adam Lecznar, Heidi Morse, 2020-01-09 The historical and cultural space of the Black Atlantic a diasporic world of forced and voluntary migrations has long provided fertile ground for the construction and reconstruction of new forms of classicism From the aftermath of slavery up to the present day black authors intellectuals and artists in the Atlantic world have shaped and reshaped the cultural legacies of classical antiquity in a rich variety of ways in order to represent their identities and experiences and reflect on modern conceptions of race nation and identity The studies presented in this volume range across the Anglophone Francophone and Hispanophone worlds including literary studies of authors such as Derek Walcott Marlene NourbeSe Philip and Junot Diaz biographical and historical studies and explorations of race and classicism in the visual arts They offer reflections on the place of classicism in contemporary conflicts and debates over race and racism and on the intersections between classicism race gender and social status demonstrating how the legacies of ancient Greece and Rome have been used to buttress racial hierarchies but also to challenge racism and Eurocentric reconstructions of antiquity **Integrated Pest Management** D. Abrol, Uma Shankar, 2012 Providing a critical evaluation of the management strategies involved in ecologically based pest management this book presents a balanced overview of environmentally safe and ecologically sound approaches Topics covered include biological control with fungi and viruses conservation of natural predators use of botanicals and how effective pest management can help promote food security In the broader context of agriculture sustainability and environmental protection the book provides a multidisciplinary and multinational perspective on integrated pest management useful to researchers in e *Paranoid Science* Antony Alumkal, 2019-04-01 Explores the Christian Right's fierce opposition to science explaining how and why its leaders came to see scientific truths as their enemy For decades the Christian Right's high profile clashes with science have made national headlines From attempts to insert intelligent design creationism into public schools to climate change denial efforts to cure gay people through conversion therapy and opposition to stem cell research the Christian Right has battled against science How did this hostility begin and more importantly why has it endured Antony Alumkal provides a comprehensive background on the war on science how it developed and why it will continue to endure

Drawing upon Richard Hofstadter's influential 1965 essay *The Paranoid Style in American Politics* Antony Alomkal argues that the Christian Right adopts a similar paranoid style in their approach to science. Alomkal demonstrates that Christian Right leaders see conspiracies within the scientific establishment with scientists not only peddling fraudulent information but actively concealing their true motives from the American public and threatening to destroy the moral foundation of society. By rejecting science, Christian Right leaders create their own alternative reality, one that does not challenge their literal reading of the Bible. While Alomkal recognizes the many evangelicals who oppose the Christian Right's agenda, he also highlights the consequences of the war on reality both for the evangelical community and the broader American public. A compelling glimpse into the heart of the Christian Right's anti-science agenda, *Paranoid Science* is a must read for those who hope to understand the Christian Right's battle against science and for the scientists and educators who wish to stop it. **Taiwan**

and International Human Rights Jerome A. Cohen, William P. Alford, Chang-fa Lo, 2019-05-16 This book tells a story of Taiwan's transformation from an authoritarian regime to a democratic system where human rights are protected as required by international human rights treaties. There were difficult times for human rights protection during the martial law era, however, there has also been remarkable transformation progress in human rights protection thereafter. The book reflects the transformation in Taiwan and elaborates whether or not it is facilitated or hampered by its Confucian tradition. There are a number of institutional arrangements including the Constitutional Court, the Control Yuan, and the yet to be created National Human Rights Commission which could play or have already played certain key roles in human rights protections. Taiwan's voluntarily acceptance of human rights treaties through its implementation, legislation, and through the Constitutional Court's introduction of such treaties into its constitutional interpretation are also fully expounded in the book. Taiwan's NGOs are very active and have played critical roles in enhancing human rights practices. In the areas of civil and political rights, difficult human rights issues concerning the death penalty remain unresolved. But regarding the rights and freedoms in the spheres of personal liberty, expression, privacy, and fair trial, including lay participation in criminal trials, there are in-depth discussions on the respective developments in Taiwan that readers will find interesting. In the areas of economic, social, and cultural rights, the focuses of the book are on the achievements as well as the problems in the realization of the rights to health, a clean environment, adequate housing, and food. The protections of vulnerable groups including indigenous people, women, LGBT, lesbian, gay, bisexual, and transgender individuals, the disabled, and foreigners in Taiwan are also the areas where Taiwan has made recognizable achievements but still encounters problems. The comprehensive coverage of this book should be able to give readers a well-rounded picture of Taiwan's human rights performance. Readers will find appealing the story of the effort to achieve high standards of human rights protection in a jurisdiction barred from joining international human rights conventions. This book won the American Society of International Law 2021 Certificate of Merit in a Specialized Area of International Law.
