The Hieroglyphics Of Horapollo:

The Hieroglyphics of Horapollo Horapollo Niliacus,2020-06-30 Written reputedly by an Egyptian magus Horapollo Niliacus in the fourth century C E The Hieroglyphics of Horapollo is an anthology of nearly two hundred hieroglyphics or allegorical emblems said to have been used by the Pharaonic scribes in describing natural and moral aspects of the world Translated into Greek in 1505 it informed much of Western iconography from the sixteenth through the nineteenth centuries This work not only tells how various types of natural phenomena emotions virtues philosophical concepts and human character types were symbolized but also explains why for example the universe is represented by a serpent swallowing its tail filial affection by a stork education by the heavens dropping dew and a horoscopist by a person eating an hourglass In his introduction Boas explores the influence of The Hieroglyphics and the causes behind the rebirth of interest in symbolism in the sixteenth century The illustrations to this edition were drawn by Albrecht Dürer on the verso pages of his copy of a Latin translation

The main aim of this book is to reconstruct a philosophical context for the Hieroglyphica of Horapollo a late 5th century Greek study of hieroglyphic writing In addition to reviewing and drawing on earlier approaches it explores the range of signs and meanings for which Horapollo is interested in giving explanations whether there are characteristic types of explanations given what conception of language in general and of hieroglyphic Egyptian in particular the explanations of the meanings of the glyphs presuppose and what explicit indications there are of having been informed or influenced by philosophical theories of meaning signs and interpretation
