educators and families with young children *Body Genre* David Scott Diffrient, 2023-11-27 In this groundbreaking work author David Scott Diffrient explores largely understudied facets of cinematic horror from the various odors permeating classic and contemporary films to the wetness sliminess and stickiness of these productions which he argues practically scream out for a tactile mode of textural analysis as much as they call for more traditional forms of textual analysis Dating back to Carol Clover's and Linda Williams's pioneering work on horror cinema film scholars have long conceptualized this once disreputable category of cultural production as a body genre However despite the growing recognition that horror serves important biological and social functions in our lives scholars have only scratched the surface of this genre with regard to its affective corporeal and sensorial appeals Diffrient anatomizes horror films in much the same way that a mad scientist might handle the body separating and recombining constitutive parts into a new analytical whole Further he challenges the tendency of scholars to privilege human over nonhuman beings and calls into question ableist assumptions about the centrality to horror films of sight and sound to the near exclusion of other forms of sense experience In addition to examining the role that animals living or dead real or fake play in human centered fictions this volume asks what it means for audiences to consume motion pictures in which actors stunt performers and other creative personnel have put their own bodies and lives at risk for our amusement Historically grounded and theoretically expansive *Body Genre Anatomy of the Horror Film* moves the study of cinematic horror into previously uncharted waters and breathes life into a subject that not coincidentally is intimately connected to breathing as our most cherished dividing line between life and death **Charming the Troll's Heart** Lyonne Riley, 2023-11-30 Stolen from her bed in the middle of the night Rimi is shipped across the ocean to a strange land and kept in a cage like an animal She's almost given up hope for escape when a good natured roguish troll is assigned to be her new caretaker Lo zar is a petty criminal smuggling illicit goods from one place to another while enjoying his life as a carefree player But when he's tasked with transporting a human woman to a buyer he wonders if he's really doing the right thing As Lo zar grows fond of the clever sweet Rimi he knows he has to help her even if freeing her means putting his life on the line Can they survive the dangers of the jungle together and get Rimi back home This is a super steamy standalone monster romance 50k words that takes place in the Trollkin Lovers universe and incorporates characters from previous books but can be read alone It features a guard captive dynamic size difference a male troll who's a knight in shining armor a high class FMC a language barrier breeding and a little magic A guaranteed HEA For all tropes and CWs visit the author's website at LyonneRiley.com **Eva Thorne** Lorel Clayton, 2021-10-18 Fun clever fantasy with an epic ending I hated the late shift I hated the morning shift too If only I could make a living doing something I enjoyed like yelling and intimidating people The surly Eva Thorne is a born detective when she's not playing the femme fatale but it takes her brother's murder to set her on a hunt for clues What she discovers brings her up against a powerful slave trading cartel dark gods and worst of all her twin sister In a city of elvish masters and matriarchal dwarves where humans have no rights the
