,2003 **Speaking American** Zevi Gutfreund,2019-03-07 When Lyndon B Johnson signed the Bilingual Education Act of 1968 language learning became a touchstone in the emerging culture wars Nowhere was this more apparent than in Los Angeles where elected officials from both political parties had supported the legislation and where the most disruptive protests over it occurred The city with its diverse population of Latinos and Asian Americans is the ideal locus for Zevi Gutfreund s study of how language instruction informed the social construction of American citizenship Combining the history of language instruction school desegregation and civil rights activism as it unfolded in Japanese American and Mexican American communities in L A this timely book clarifies the critical and evolving role of language instruction in twentieth century American politics Speaking American reveals how for generations language instruction offered a forum for Angelino educators to articulate their responses to policies that racialized access to citizenship from the national origins immigration quotas of the Progressive Era through Congress s removal of race from these quotas in 1965 Meanwhile immigrant communities designed language experiments to counter efforts to limit their liberties Gutfreund s book is the first to place the experiences of Mexican Americans and Japanese Americans side by side as they navigated debates over Americanization programs intercultural education school desegregation and bilingual education In the process the book shows these language experiments helped Angelino immigrants introduce competing concepts of citizenship that were tied to their actions and deeds rather than to the English language itself Complicating the usual top down approach to the history of racial politics in education Speaking American recognizes the ways in which immigrant and ethnic activists as well as white progressives and conservatives have been deeply invested in controlling public and private aspects of language instruction in Los Angeles The book brings compelling analytic depth and breadth to its examination of the social and political landscape in a city still at the epicenter of American immigration politics *Canadian Books in Print* ,2003 **Jews and Their**

Between Europe and North Africa Fatima Lahnait, 2009 The purpose of the role of binational entrepreneurs as social and economic bridge builders between Europe and North Africa is to show academics and practitioners the importance of the role of European bi nationals It contains chapters by professional practitioners from a number of countries and businesses and from journalists and security agency members The main issues discussed are the principle features of successful integration of North African immigrants into French and Spanish societies and the causes and symptoms of dysfunctional integration how a partnership network can be established between the Maghreb diaspora in France and Spain and their parent countries what the obstacles of such a network are and what can be used to develop it how emigrants of dual nationality are viewed in their countries of origin and how the process of social reintegration can be assured if dual nationals can play a role in giving an impetus to economic growth in North African countries and if France and Spain can adopt measures to facilitate this process the respective roles of government and NGOs and international organizations and how relevant the lessons are that can be learned from this case study to the relationships between other immigrant populations and their host countries This book includes some suggestions for action discussed in the workshop prior to this publication
