**Social Perspectives on Death and Dying** Jeanette A. Auger, 2020-07-25T00:00:00Z Death is inevitable but our perspectives about death and dying are socially constructed. This updated third edition takes us through the maze of issues both social and personal which surround death and dying in Canada. Topics include euthanasia and medically assisted death, palliative care and hospices, the high incidence of opioid deaths, the impact of cyber bullying in suicide deaths, the sociology of HIV/AIDS, funeral and burial practices, the high rates of suicide in Canada, and dealing with grief and bereavement among others. Additionally, Auger explores alternative methods for helping dying persons and their loved ones deal with death in a holistic patient-centred way. Each chapter includes suggested readings, discussion questions, and in-class assignments.

**How to Live and Die** Lama Zopa Rinpoche, 2025-10-07 In this authoritative account of one of the most important practices in Tibetan Buddhism, Lama Zopa shows us how facing the reality of death and impermanence can transform and enrich our life. What death is, how we die, what minds we need at death, and what happens after death only by knowing about death and rebirth can we actually fully understand what life is and so learn how to live fully. Lama Zopa Rinpoche There is arguably no truth more foundational to Buddhism than this: everything is impermanent. We can see this in the world all around us; old systems break down, relationships change. Death comes for those we love and inevitably for us. In this book, the late beloved teacher Lama Zopa Rinpoche walks us through the traditional revelatory practices of meditating on the fact of impermanence and even especially on death itself. Rather than shy away from this reality, we look straight at it and thus we learn not only how to not fear death but how to live.

**EBOOK: A Good Death: On the Value of Death and Dying** Lars Sandman, 2004-09-16 Is there such a thing as a good death? Should we be able to choose how we wish to die? What are the ethical considerations that surround a good death? The notion of a good death plays an important role in modern palliative care and remains a topic for lively debate. Using philosophical methods and theories, this book provides a critical analysis of Western notions surrounding the dying process in the palliative care context. Sandman highlights how our changing ideas about the value of life inevitably shape the concept of a good death. He explores the varying perspectives on the good death that come from friends, family, physicians, spiritual carers, and others close to the dying person. Setting out a number of arguments for and against existing thinking about a good death, this book links to the practice of palliative care in several key areas, including:

- An exploration of the universal features of dying
- The process of facing death
- Preparation for death
- The environment of dying and death

The author concludes that it is difficult to find

convincing reasons for any one way to die a good death and argues for a pluralist approach A Good Death is essential reading for students and professionals with an interest in palliative care and end of life issues     **Death and Religion: The Basics**
