Fundamental Tax Reform John W. Diamond, George R. Zodrow, 2008 Papers presented at a conference held at the

James A Baker III Institute for Public Policy at Rice University in Apr 2006 *Dimensions of Tax Design* James A. Mirrlees, Stuart Adam, 2010-04-29 The goal of the Mirrlees Review has been to identify what makes a good tax system for an open developed economy in the 21st century and to suggest how the UK tax system could be reformed to move in that direction As an integral part of the Review this volume brings together thirteen studies of different dimensions of tax design plus associated commentaries These were commissioned from IFS researchers and other international experts to be of interest and value in their ownright as well as to provide inspiration for the final report of the Review which is published as a separate volume *Tax by Design* The Commission s work was directed by Tim Besley Richard Blundell Malcolm Gammie James Poterba The Commission s editorial team Stuart Adam Stephen Bond Robert Chote Paul Johnson Gareth Myles Philosophical Explorations of Justice and Taxation Helmut P. Gaisbauer, Gottfried Schweiger, Clemens Sedmak, 2015-01-20 This volume presents philosophical contributions examining questions of the grounding and justification of taxation and different types of taxes such as inheritance wealth consumption or income tax in relation to justice and the concept of a just society The chapters cover the different levels at which the discussion on taxation and justice takes place On the principal level chapters investigate the justification and grounding of taxation as such and the role taxation plays and should play in the design of justice be it for a just society or a just world order On a more concrete level chapters present discussions of these general reflections in more depth and examine different types of taxation tax systems and their design and implementation On an applied level chapters discuss certain specific taxes such as wealth and inheritance taxes and examine whether or not a certain tax should be favored and for what reasons as well as why it is just to target certain kinds of assets or income Finally this volume contains chapters that discuss the central issue of international and global taxation and their relation to global justice **State and Local Public Finance** Ronald C. Fisher, 2018-09-03 Now in its 4th edition *State and Local Public Finance* provides a comprehensive and sophisticated analysis of state and local government public finance practices and issues using the basic tools of economics For this new edition there is a focus on the most important services provided in the state local sector education health and welfare public safety and transportation This textbook provides an examination and analysis of public finance practices and problems in a federal fiscal system focusing on the fiscal behaviour and policies of state and local governments The author presents detailed descriptions of significant institutions Modern economic theory is applied to examine the way these institutions are used to produce and finance services and to provide evaluation of alternative policies Although the emphasis is on U S institutions and issues much of the economic analysis can be applied to any federal system or to fiscal decentralization This fully revised new edition sees updates throughout to data topics and applications The Headlines and Applications sections reflect the most current policy issues affecting state and local governments These include the effects of the Great Recession on state and local governments changes in the tax treatment of internet purchases the Affordable Care Act and implications for Medicaid spending by state governments demographic

changes and the implications for state local finances the implications of changes in automobile technology for transportation financing and the potential for increased gambling activity This text will continue to be invaluable reading for those who study public finance local government finance urban economics and public policy and public administration **Racial**

Taxation Camille Walsh,2018-02-02 In the United States it is quite common to lay claim to the benefits of society by appealing to taxpayer citizenship the idea that as taxpayers we deserve access to certain social services like a public education Tracing the genealogy of this concept Camille Walsh shows how tax policy and taxpayer identity were built on the foundations of white supremacy and intertwined with ideas of whiteness From the origins of unequal public school funding after the Civil War through school desegregation cases from Brown v Board of Education to San Antonio v Rodriguez in the 1970s this study spans over a century of racial injustice dramatic courtroom clashes and white supremacist backlash to collective justice claims Incorporating letters from everyday individuals as well as the private notes of Supreme Court justices as they deliberated Walsh reveals how the idea of a taxpayer identity contributed to the contemporary crises of public education racial disparity and income inequality Taxation and Gender Equity Caren Grown,Imraan Valodia,2010 Around the world there are concerns that many tax codes are biased against women and that contemporary tax reforms tend to increase the incidence of taxation on the poorest women while failing to generate enough revenue to fund the programs needed to improve these women s lives Because taxes are the key source of revenue governments themselves raise understanding the nature and composition of taxation and current tax reform efforts is key to reducing poverty providing sufficient revenue for public expenditure and achieving social justice This is the first book to systematically examine gender and taxation within and across countries at different levels of development It presents original research on the gender dimensions of personal income taxes and value added excise and fuel taxes in Argentina Ghana India Mexico Morocco South Africa Uganda and the United Kingdom This book will be of interest to postgraduates and researchers studying Public Finance International Economics Development Studies Gender Studies and International Relations among other disciplines

Handbook of Behavioural Economics and Smart Decision-Making Morris Altman,2017-05-26 This Handbook is a unique and original contribution of over thirty chapters on behavioural economics examining and addressing an important stream of research where the starting assumption is that decision makers are for the most part relatively smart or rational This particular approach is in contrast to a theme running through much contemporary work where individuals behaviour is deemed irrational biased and error prone often due to how people are hardwired In the smart people approach where errors or biases occur and when social dilemmas arise more often than not improving the decision making environment can repair these problems without hijacking or manipulating the preferences of decision makers This book covers a wide range of themes from micro to macro including various sub disciplines within economics such as economic psychology heuristics fast and slow thinking neuroeconomics experiments the capabilities approach institutional economics methodology nudging

ethics and public policy Tax Cheating Donald Morris,2012-06-01 From unreported gambling winnings and inflated claims of the value of clothing donated to charity to money hidden in Swiss bank accounts and high profile tax schemes plotted by celebrities and business leaders the range of tax cheating opportunities is wide and the boundaries and moral status can be hazy Considering the behavior of individuals and small businesses as well as the involvement of congress and the IRS Donald Morris combines insights from law psychology sociology criminology accounting economics and philosophy to examine the ethical issues surrounding tax cheating and implications for tax policy Advances in Taxation John Hasseldine,2021-10-19 Advances in Taxation is essential reading for those looking to keep abreast of the most recent research including empirical studies using a variety of research methods from different institutional settings and contexts **Integration Approaches to Group Taxation in the European Internal Market** Ioanna Mitroyanni,2008-10-13 The creation of a group taxation framework to subject affiliated entities resident in more than one EC Member State to a single set of rules is an experiment without precedent Group taxation normally deals with tax liability in the context of a single jurisdiction There is no system of group taxation worldwide which embraces more than one fiscal jurisdiction under a single regulatory umbrella This thought provoking work explores the prospect for creating a group taxation system extending across national borders in the EC The objective is to specify what shape the elements of such a system should take as well as to identify the areas of complexity or probable impasse Among the topics covered The relevant jurisprudential and legislative framework of the European Internal Market A survey of the tax systems of Canada Switzerland and the US with a focus on the principles pertaining to the division of power between the federal and sub federal tiers The policies for corporate taxation in integrated markets Administrative concerns compliance enforcement dispute resolution and re assessment of tax liability Tests for entitlement to group membership Tax base integration Territorial delineation of the group and Formulary apportionment In sum this book provides valuable insights into an area of significant importance to taxpayers their advisors and policymakers as well

Pesticide Law and Compliance Decision Making Huiqi Yan,2017-08-10 This book investigates pesticide compliance in China in order to provide a more comprehensive understanding of compliance and offers some feasible and adaptable

suggestions for enhancing the effectiveness of this compliance. It discusses the weak implementation of Chinese laws and rules and emphasizes the necessity and importance of a compliance perspective in China that focuses on why laws are obeyed or broken. It examines how vegetable farmers' perceptions of amoral calculation affect their pesticide compliance behavior and analyzes how the legitimacy of law is related to compliance to better explain how all the variables interact to shape compliance. It discusses both qualitative and quantitative methods and uses a large N qualitative approach which allows for systematic analysis and in depth exploration. This book will help readers to understand compliance in developing China by adopting and developing compliance theories which are broadly developed in the West.
