A Multilateral Convention for Tax Sergio André Rocha,Allison Christians,2021-11-29 The Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting MLI is the most forceful multilateral initiative to coordinate tax regimes on a worldwide basis since the dawn of modern income taxation over a century ago This book evaluates two radically opposed viewpoints on the convention a momentous and revolutionary paradigm shift versus a mechanism that merely continues an ongoing flow of limited policy coordination with detailed investigations that bring to life the hopes and the realities of the current era of multilateral tax cooperation Bringing together authors from national

jurisdictions across the globe to scrutinize the MLI and its likely future ramifications the book provides in depth commentary and analysis in the following sequence first a comprehensive discussion of the design and goals of the MLI as a treaty and an institutional framework second an overview of the structure of the convention and its take up across the globe to date and third the substantive implementation of the MLI with a wide range of country reports Practice areas covered include tax law international law and international relations The legal workings and implications of the MLI might still seem mysterious to those whose daily work is impacted by it and there is as yet little jurisprudence regarding its legal nature or ultimate effect on the bilateral treaties coming within its scope For these reasons this pathbreaking book will be warmly welcomed by in house counsel and law firms advising cross border investors and firms nongovernmental organizations involved in policy analysis and issue advocacy researchers working on technical areas of international tax law and lawyers interested in international policymaking including the creation and diffusion of consensus based fiscal and related regulatory norms across jurisdictions of differing development levels

Musyimi-Ogana, 2023-06-29 Aid Evaporation is a new Notion It is based on an academic study that comprehensively examined how ODA is governed from the source to the destination Key ODA parameters emerged from the existing ODA governance frameworks namely mechanism ideology development approach and processes By unpacking elements contributing to aid ineffectiveness through these parameters exploring the existence of the aid evaporation and examining the key enablers of ODA Evaporatoon the study discovered supply side factors contributed significantly to Aid ineffectiveness It exposed different AID Evaporation enablers which play different hidden functions such as ODA Door Openers Appetizers Softeners Sponges Convertors Controllers Distorters as well as Carrot and Stick among others Key findings revealed that the prevailing perception that aid ineffectiveness was a demand side problem was only part of the story because supply side challenges were probably more responsible for billions of ODA that could not be accounted for It has recommended the re writing of the narrative that ODA ineffectiveness is predominantly premised on demand side by incorporating supply side factors Findings demonstrated that while there were indeed demand side challenges such as bad governance corruption and lack of strong institutions there were also supply donor side challenges such as over reliance of donor s own inefficient ODA governance frameworks as well as ODA delivery mechanisms the entrenchment of bilateral interest in ODA processes and geo political interests among other factors In this regard the study confirmed that the 62% of the ODA that could not be accounted for according to existing literature was either held up in the pipeline or evaporates mostly from the supply side This finding brought clarity on the weak impact of ODA and corroborated with existing literature on the mystery of

unaccounted ODA While the notion of aid evaporation emerged as an attribution and part of a reflection on the problem of ODA dissipation at the preliminary stage of the literature review it became the central issue of focus throughout the research investigation which involved substantive field work to bring clarity on the problem The study has made theoretical and practical contributions to the existing concepts on ODA governance and proposed a new concept namely the Supply Baggage Concept The new concept should inform the Post Paris era in achieving Aid effectiveness by weding out Evaporation using the Aid Evaporation Detection Framework proposed in this book General Tax Reform (testimony from Administration and Public Witnesses): (March 14, 15, 16, 1973) United States.
