as well as his own explorations Alex Chionetti examines the legends and mysteries associated with this site and the explorers who have ventured within He details the discovery of the Tayos Cave complex by Hungarian explorer Janos Juan Moricz in the 1960s including Moricz's claims of finding a metal library with books of gold Exploring the oral tradition of the Shuar he explains how this region was the possible origin of Incan culture and the legend of El Dorado The author shares his own dangerous explorations within the Tayos Caves and drawing on unpublished interviews with speleologist Julio Goy'n Aguado he reconstructs the expeditions of the 1960s and 70s revealing the Mormon Church's search for lost tablets a British army incursion and sightings of paintings gold statues and skeletons copper plates and a quartz sarcophagus treasures akin to the Crespi treasure The author also shares details from Stanley Hall's suspicious expedition in 1976 which included astronaut Neil Armstrong Investigating the lost civilizations behind the Tayos treasures Chionetti explores the possible connections to Atlantis aliens Ancient Astronauts and the Hollow Earth theory the caves links with hermetic societies and claims of tunnel networks that extend thousands of miles through both American continents from the Rocky Mountains to Patagonia Sharing a real life adventure story wilder than an Indiana Jones plot the author shows that Earth's ancient past has many secrets waiting to be uncovered *The World Tree* William Gaspar,2011-11-18 A scientist studies the Mayan calendar and the prophecy that the world will end in the later part of 2012 *Voices of the Ancients* Stephen B. Shaffer,2023-02-02 Go Beyond the Same Old Names Dates and Facts with this intriguing look at what really happened in history the material that never made it into your textbooks From ancient artifacts to modern cover ups you'll go behind the scenes of history and experience a never before seen look at America's past After Years of Research Steve Shaffer has compiled a marvelous collection of true histories that offer a rare glimpse of ancient America and show us all how little we really know about our past Join Steve in his quest to uncover the truth and discover for yourself that history is still an open book **History Is Wrong** Erich von Däniken,2025-09-12 History is Wrong will challenge your intellect and maybe a few long held beliefs This is Erich von Daniken's best book in years Erich von Daniken again shows his flair for revealing the truths that his contemporaries have missed After closely analyzing hundreds of ancient and apparently unrelated texts he is now ready to proclaim that human history is nothing like the world religions claim and he has the proof In History is Wrong Erich von Daniken takes a closer look at the fascinating Voynich manuscript which has defied all attempts at decryption since its discovery and makes some fascinating revelations about the equally incredible Book of Enoch Von Daniken also unearths the intriguing story of a lost subterranean labyrinth in Ecuador that is said to be home to an extensive library of thousands of gold panels He supplies evidence that the metal library not only has links to the Book of Enoch but also to the Mormons who have spent decades searching for it believing it to contain the history of their forefathers And what about the mysterious lines in the desert of Nazca that look like landing strips when viewed from the air Archeologists claim they are ancient procession routes Think again cries von Daniken as he reveals the data that the archeologists never even thought to check **Exposed,**

Eyewitness to the Gods Erich von Däniken, 2025-09-12 The father of the ancient alien theory with more than 65 million books sold reveals everything he has withheld for years In all his years of service why didn t Erich von D

niken ever doubt his theory that inhabitants of other planets had come into contact with humanity ages ago and that they still observe us today How could von D niken in all these years say firmly that the UFO phenomenon is real and that people are being abducted by aliens Why does he repeatedly criticize the official historiography and our religions and thus accept scorn and hostility The answers to these questions are Because Erich von D niken spoke to people who supported his theories Because people who saw UFOs or were kidnapped by aliens trusted him And because experts and insiders inaugurated secrets known to only a few people In this book the now 81 year old presents selected eyewitnesses and insiders for the first time reveals secrets and stories that he has hitherto kept private and presents reports and revelations that leave one

Nina Mirnig, Peter-Daniel Szanto, Michael Williams, 2013-12-23 It is perhaps commonplace to say that India is one of the world s richest and most enticing cultures One thousand years have passed since Albiruni arguably the first Indologist wrote his outsider s account of the subcontinent and two hundred years have passed since the inception of Western Indology And yet what this monumental scholarship has achieved is still outweighed by the huge tracts of terra incognita thousands of works lacking scholarly attention and even more manuscripts which still await careful study whilst decaying in the unforgiving Indian climate In September 2009 young researchers and graduate students in this field came together to present their cutting edge work at the first International Indology Graduate Research Symposium which was held at Oxford University This volume the first in a new series which will publish the proceedings of the Symposium will make important contributions to the study of the classical civilisation of the Indian sub continent The series edited by Nina Mirnig Peter-Daniel Szanto and Michael Williams will strive to cover a wide range of subjects reaching from literature religion philosophy ritual and grammar to social history with the aim that the research published will not only enrich the field of classical Indology but eventually also contribute to the studies of history and anthropology of India and Indianised Central and South East Asia
