**Human Birth** Wenda R. Trevathan, 2017-07-05 The story of human evolution has been told hundreds of times each time with a focus that seems most informative of the teller No matter how it is told the primary characters are rarely mothers and infants Darwin argued survival but today we know that reproduction is what evolution is all about Centering on this Trevathan focuses on birth which gives the study of human evolution a crucial new dimension Unique among mammals humans are bipedal The evolution of bipedalism required fundamental changes in the pelvis and resulted in a narrow birth canal Humans are also large brained animals which means that birth is much more challenging for our species than for most other animals The result of this mismatch of large head and narrow pelvis is that women are highly dependent on assistance at birth and their babies are born in an unusually undeveloped state when the brain is still small Human Birth discusses how the birth process has evolved and ways in which human birth differs from birth in all other mammals Human Birth is also concerned with mother infant interaction immediately after birth While working as a midwife trainee Trevathan carefully documented the births of more than one hundred women and recorded maternal and infant behaviors during the first hour after birth She suggests ways in which the interactions served not only to enhance mother infant bonding but also to ensure survival in the evolutionary past With clarity and compelling logic Trevathan argues that modern birth practices often fail to meet evolved needs of women and infants and suggests changes that could lead to better birth experiences This paperback edition includes a new introduction by the author *Output-Based Aid* Yogita Mumssen, Lars Johannes, Geeta

Kumar, 2010-02-25 Developing country governments and the development aid community are acutely aware of the need to find more effective ways to improve basic living conditions for the poor as traditional approaches of delivering public support have not always led to the results intended Results based financing RBF instruments which tie the disbursement of public funding to the achievement of pre agreed results are now recognized as one important piece of the aid delivery puzzle The aim of these instruments is to enhance the effectiveness of public funding *Output Based Aid Lessons Learned and Best Practices* provides a practical understanding of the experience with output based aid OBA a results based instrument that is being used to deliver basic infrastructure and social services to the poor including through public private partnerships OBA has been used in the World Bank Group since 2002 including more recently through the Global Partnership on Output Based Aid which has a mandate to design and test OBA approaches The authors of this book analyze nearly 200 OBA projects in water and sanitation energy health roads telecommunications and education The piloting phase of OBA has in general been a success and OBA has demonstrated clear advantages over traditional approaches in terms of efficiently targeting subsidies and mobilizing the private sector to serve poor households that would otherwise go without an improved service OBA has also demonstrated that monitoring for results is possible if appropriate systems are put in place As the first comprehensive review of OBA in eight years this book will be an essential reference for infrastructure and social services sector experts and

OBA practitioners around the world including staff of international financial institutions public and private service providers and NGOs as well as for donors and governments who are interested in piloting or scaling up and mainstreaming OBA approaches As the first comprehensive review of OBA in eight years this book will be an essential reference for infrastructure and social services sector experts and OBA practitioners around the world including staff of international financial institutions public and private service providers and NGOs and for donors and governments who are interested in piloting or scaling up and mainstreaming OBA approaches **PlanetInform's GLOBAL Directory for Major Automobile Dealers** ,
