The Future of Ideas Lawrence Lessig, 2002-11-12 The Internet revolution has come Some say it has gone In *The Future of Ideas* Lawrence Lessig explains how the revolution has produced a counterrevolution of potentially devastating power and effect Creativity once flourished because the Net protected a commons on which widest range of innovators could experiment But now manipulating the law for their own purposes corporations have established themselves as virtual gatekeepers of the Net while Congress in the pockets of media magnates has rewritten copyright and patent laws to stifle creativity and progress Lessig weaves the history of technology and its relevant laws to make a lucid and accessible case to protect the sanctity of intellectual freedom He shows how the door to a future of ideas is being shut just as technology is creating extraordinary possibilities that have implications for all of us Vital eloquent judicious and forthright *The Future of Ideas* is a call to arms that we can ill afford to ignore
