The Fiddler's Fakebook David Brody, 1983-01-06 From the author's preface This book was conceived four years ago almost to the day at a time when I was teaching fiddle and mandolin in New York City It was my idea then with my students in mind to compile a book of the most often played most important and most interesting fiddle tunes from the various Celtic and North American traditions The tunes were chosen by cataloging a large number of recordings by tune title A tally was taken to find out which had been recorded most often This established a foundation of material that could not be left out To this list I added the names of other pieces which had not been recorded as frequently but which I knew were played regularly and with respect I admit to sprinkling the collection with a few lesser known tunes which happen to be personal favorites but I am sure they will hold their own when placed next to the old war horses of the fiddler's repertoire Although I started out with my students in mind this book has turned out to be the book that I've always wanted and I hope that it will serve the advanced player as well as the beginner

First Lessons Banjo Jack Hatfield, 2011-11-30 *First Lessons on Banjo* is an ultra easy instruction manual for beginning five string banjo played in the three finger style in G tuning. It can be used by those with no previous experience with the banjo or music of any sort. It is so basic it can be used even by small children. The book features very detailed descriptions of even the most basic aspects such as wearing the picks properly, the correct picking motion and noting the strings properly. These are aspects that are so basic most manuals skip over them. There are many detailed photos, several from the player's point of view, not from in front of the banjo. *First Lessons on Banjo* covers the most basic rolls: the Alternating Thumb Roll and two Forward Rolls, plus the three basic chords plus the relative minor chord. All musical examples are presented in tablature with the melody notes in boldface type so the student knows which notes to emphasize. All arrangements include lyrics, which is very important to the novice who is trying to train the ear to hear the melody among the fill notes. Several tips and suggestions about the proper mental approach are included that will lead to playing by ear and arranging at an earlier stage in the student's development. There are also suggestions about developing the proper mental approach and about speed reading of tablature. These suggestions are not found in any other banjo instruction book. The finale arrangement is *Cripple Creek*, a popular banjo standard that when mastered should give the novice a great sense of accomplishment. The accompanying recording includes all tabbed examples with the rhythm instruments and lead banjo in separate channels. The songs are played at three tempos: the first tempo VERY slow, then a medium tempo version and finally at performing speed with guitar, mandolin and bass accompaniment. The up tempo accompanied versions are all together at the end of the recording so it can be used as a listening recording. This also allows the student to play along with all the more interesting arrangements in sequence without skipping around the recording.
