*Syntactic Analysis and Description* David Lockwood, 2005-12-07. This book is designed to teach undergraduate and beginning graduate students how to understand, analyse and describe syntactic phenomena in different languages. The book covers every aspect of syntax from the basics to more specialised topics such as clitics, which have grammatical importance but cannot be used in isolation, and negation, in which a construction contradicts the meaning of a sentence. The approach taken combines concepts from different theoretical schools which view syntax differently. These include M. A. K. Halliday's systemic functional linguistics, the stratificational school advocated by Sydney Lamb, and Kenneth L. Pike's tagmemic model. The emphasis of the book is on syntactic structures rather than linguistic meaning, and the book stresses the difference between a well-formed sentence and a meaningful one. The final chapter brings these two aspects together to show the connections between syntax and semantics. Each chapter concludes with exercises from a diverse range of languages and a list of major technical terms. The book also includes a glossary as an essential resource for students approaching this difficult subject for the first time.

These complete courses are based on the very latest learning methods and designed to be enjoyable and user friendly. Prepared by experts in the language each course begins with the basics and gradually elevates the student to a level of smooth and confident communication. Japanese H. J. Ballhatchet, Stefan Kaiser, 2001 A complete course in understanding and speaking Japanese. Cover *Resources in Education*, 2001 *Language Learning Motivation in Japan* Matthew T. Apple, Dexter Da Silva, Terry Fellner, 2013-10-01 This book synthesises current theory and research on L2 motivation in the EFL Japanese context carried out by internationally recognized researchers and upcoming researcher educators working in various educational contexts in Japan. Topics covered include the issues of cultural identity, demotivation, language communities, positive psychology, possible L2 selves and internationalisation within a key EFL context. The studies in the book utilise a wide variety of research methodologies aiming to narrow the gap between theory and practice and examine L2 motivation in primary, secondary and tertiary education. This volume will be of interest to research teacher professionals who are currently engaged in active ESL/EFL practice, EFL educators, researchers and teacher trainers both inside and outside Japan who are interested in research on L2 motivation in general and within the Japanese context in particular as well as graduate and postgraduate researchers.
