Teachers Versus Technocrats:

Teachers Versus Technocrats Harry F. Wolcott, 2003 In *Teachers Versus Technocrats* author Harry Wolcott draws on his dual perspective as an educator and an anthropologist to provide a unique and penetrating look at the dynamics of a federally funded research and development project and to analyze what happened when university researchers and school district administrators attempted to introduce an experimental planning and evaluation system in an operating school district. Based on three years of research in which Wolcott uses a variety of anthropological field techniques this study into the school's SPECS School Planning Evaluation and Communication System program reveals insight into the project's impact on teachers and administrators and analyzes the basic cultural patterns and relationships among educators. Originally published in 1977 this new edition includes an updated preface by the author and should be valuable to educators and anthropologists alike.
