Countries**

## **The Oil Countries Of The Middle East:**

**The Oil Countries of the Middle East** Emil Lengyel, 1973-01-01 Describes nine oil producing countries and sheikdoms and the effect of this commodity on their economy political situation and people Oil, the Middle East, and the World Charles Philip Issawi, 1972 Middle East Oil Benjamin Shwadran, 1977-01-01 Shaped by the emotional climate of the ongoing Arab Israeli conflict the controversies between the oil producing and oil consuming nations are of major international concern Shwadran outlines the progressive rise in the power of the oil producing countries and the decline in the control exercised by the concessionary foreign countries that has culminated in the almost total nationalization of the foreign oil companies Because of the highly charged atmosphere surrounding the issues and their grave importance on world politics the problems are at once highly difficult to encompass and enormously important to understand Through a myriad of facts and figures the author sees the underlying patterns with precision Often narrowly viewed as having only two sides that of oil producers and consumers the situation is reflected in this book in all its facets Seen in this totality of conflicting needs desires abilities and objectives the Middle East oil crisis takes on the contradictory and explosive nature which has affected us all Middle East Oil born of the author's years of scholarship and exposure in the field describes the problems of the past but more important it gives insight into how the problem will manifest itself in the future and provides a direction for efforts toward a final resolution Contents Introduction From the Six Day War to the End of 1970 From the Teheran 1971 Agreement to the October 1973 War The Producers Develop the Oil Industry The Transporters Nationalization and Participation The Arab Oil Embargo The Efforts of the Consuming Countries Surpluses and Recycling Solutions Bibliography **Middle East Oil and Gas** International Energy Agency, 1995 *Oil in the Middle East* Dr King, John King, 2005-11 Examines the impact of the Middle East's oil industry on the development of the region's countries the benefit of oil income to the region's people the role of oil in the conflicts of the Middle East and other topics related to the Middle Eastern oil industry **The Middle East Oil Decade and Beyond** Gad G. Gilbar, 2013-11-05 This study of fundamental aspects of the oil decade examines the influence of oil production export and revenues on domestic regional and international relations It highlights the expansion of higher education in the Arab world and the increase in demand for industrial and consumer goods *Oil States in the New Middle East* Kjetil Selvik, Bjørn Olav Utvik, 2015-07-16 Oil has been central to regime survival for oil states across the Arabian Peninsula and has been at the heart of their attempts to defuse the wave of Arab revolutions However in 2011 revolution hit Libya the most oil dependent regime in the Middle East The political storm winds that have swept this region have thrown into doubt the resilience of Arab rentier states and highlight how the political effects of oil vary across the oil producing countries Oil States in the New Middle East brings together leading experts to critically assess the centrality of oil and the relevance of Rentier State Theory in light of the post 2011 upheaval across the Middle East and North Africa It combines overall reflections on the political dynamics in oil states with focused case investigations of individual countries Taking as its

starting point the centrality of oil in explanations of regime survival the book analyses how the oil states have responded to and fared throughout the Arab popular upheavals resulting in a critical assessment of the continued relevance of Rentier State Theory While observers have asked how the uprisings varied between oil and non oil states this book turns the comparative focus inward arguing for a more fine grained understanding of the political effects of oil in different oil producing countries This book would be of interest to students and scholars of Middle East North Africa and Gulf Studies Oil and Politics as well as Comparative Politics and International Political Economy

**The Middle East and North Africa in a Changing Oil Market** Mr.Bright E Okogu,2003-09-05 The world oil market has undergone a series of changes that have reduced the share of oil in the global energy balance and with it the influence of Middle Eastern oil exporters In spite of oil's loss of ground however Middle Eastern countries remain at the center of world oil developments This paper focuses on the developments in the international oil market the role of Middle Eastern countries therein and the policy challenges arising from the dependency on oil

The Growth of Firms, Middle East Oil and Other Essays Edith Penrose,2019-04-18 Published in 1971 At first glance it might seem that the three subjects dealt with in the essays written over the last twenty years and now collected in this volume could hardly be more diverse beginning with the growth of the firm and moving from the international petroleum industry to the Middle East generally Oddly enough however these subjects are connected by the same type of historical logic that characterizes the diversification of an industrial firm the logic in the simple principle that one thing leads to another
