The Organization Executive Course La Fayette Ron Hubbard,1991 **Catalog of Copyright Entries. Third Series**
Library of Congress. Copyright Office,1976 **Among the Scientologists** Donald A. Westbrook,2019 The Church of
Scientology is one of the most recognizable American born new religions but perhaps the least understood With academic
and popular interest on the rise many books have been written about Scientology and surely more will follow Although
academics have begun to pay more attention to Scientology the subject has received remarkably little qualitative attention
Indeed no work has systematically addressed such questions as what do Scientologists themselves have to say about their
religion s history theology and practices How does Scientology act as a religion for them What does lived religion look like for
a Scientologist This is not so much a book about the Church of Scientology its leaders or its controversies as it is a
compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves
Drawing on six years of interviews fieldwork and research conducted among members of the Church of Scientology this
groundbreaking work examines features of the new religion s history theology and praxis in ways that move discussion
beyond apostate driven and expos accounts *Scientology* James R. Lewis,2009-03-11 Scientology is arguably the most
persistently controversial of all contemporary New Religious Movements James R Lewis has assembled an unusually
comprehensive anthology incorporating a wide range of different approaches In this book a group of well known scholars of
New Religious Movements offers an extensive and evenhanded overview and analysis of all of these aspects of Scientology
including the controversies to which it continues to give rise **The Gnostic World** Garry W. Trompf,Gunner B.
Mikkelsen,Jay Johnston,2018-10-03 The Gnostic World is an outstanding guide to Gnosticism written by a distinguished
international team of experts to explore Gnostic movements from the distant past until today These themes are examined
across sixty seven chapters in a variety of contexts from the ancient pre Christian to the contemporary The volume considers
the intersection of Gnosticism with Jewish Christian Islamic and Indic practices and beliefs and also with new religious
movements such as Theosophy Scientology Western Sufism and the Nation of Islam This comprehensive handbook will be an
invaluable resource for religious studies students scholars and researchers of Gnostic doctrine and history The
Publishers' Trade List Annual ,1977 *Books and Pamphlets, Including Serials and Contributions to Periodicals* Library of
Congress. Copyright Office,1975 **Subject Guide to Books in Print** ,1983 **Scientology in Popular Culture** Stephen
A. Kent,Susan Raine,2017-07-14 This multidisciplinary study of Scientology examines the organization and the controversies
around it through the lens of popular culture referencing movies television print and the Internet an unusual perspective that
will engage a wide range of readers and researchers For more than 60 years Scientology has claimed alternative religious
status with a significant number of followers despite its portrayals in popular culture domains as being bizarre What are the
reasons for the vital connections between Scientology and popular culture that help to maintain or challenge it as an

influential belief system This book is the first academic treatment of Scientology that examines the movement in a popular culture context from the perspective of several Western countries It documents how the attention paid to Scientology by high profile celebrities and its mention in movies television and print as well as on the Internet results in millions of people being aware of the organization to the religious organization s benefit and detriment The book leads with a background on Scientology and a discussion of science fiction concepts pulps and movies The next section examines Scientology s ongoing relationship with the Hollywood elite including the group s use of celebrities in its drug rehabilitation program and explores movies and television shows that contain Scientology themes or comedic references Readers will learn about how the Internet and the mainstream media of the United States as well as of Australia Germany and the UK have regarded Scientology The final section investigates the music and art of Scientology
