*Catalyst for Controversy* Harold Henderson,2009-03-10 I am not a common atheist I am an atheist who loves God Paul Carus The God of Science 1904 In the summer of 1880 while teaching at the military academy of the Royal Corps of Cadets of Saxony in Dresden Paul Carus published a brief pamphlet denying the literal truth of scripture and describing the Bible as a great literary work comparable to the Odyssey This unremarkable document was Carus s first step in a wide ranging intellectual voyage in which he traversed philosophy science religion mathematics history music literature and social and political issues The Royal Corps Carus later reported found his published views not in harmony with the Christian spirit in accordance with which the training and education of the Corps of Cadets should be conducted And so the corps offered the young teacher the choice of asking most humbly for forgiveness for daring to have an opinion of my own and to express it perhaps even promise to publish nothing more on religious matters or to give up my post I chose the latter There was thus no other choice for me but to emigrate and trusting in my own powers to establish for myself a new home His resignation was effective on Easter Sunday 1881 Carus toured the Rhine lived briefly in Belgium and taught in a military college in England to learn English well enough to thrive in the United States By late 1884 or early 1885 he was on his way to the New World Thriving in the United States proved more difficult than it had in England but before 1885 ended he had published his first philosophical work in English Monism and Meliorism The book was not widely read but it did reach Edward C Hegeler a La Salle Illinois zinc processor who became his father in law as well as his ideological and financial backer Established in La Salle Carus began the work that would place him among the prominent American philosophers of his day and make the Open Court Publishing Company a leading publisher of philosophical scientific and religious books He edited The Open Court and The Monist offering the finest view of Oriental thought and religion then available in the West and sought unsuccessfully to bring about a second World Parliament of Religions He befriended physicist philosopher Ernst Mach For eleven years he employed D T Suzuki who later became a great Zen Buddhist teacher He published more articles

by Charles S Peirce now viewed as one of the great world philosophers in The Monist than appeared in any other publication Biographer Harold Henderson concludes his study of this remarkable man Whenever anyone is so fired with an idea that he or she can't wait to write it down there the spirit of Paul Carus remains as he would have wished active in the world

Exhibiting Religion John P. Burris, 2001 In this revision of his dissertation in religion at U of California Santa Barbara Burris religious studies Stetson U explores the development of a comparative study of religion as this can be deduced from the exhibits on world religion and culture at 19th century world expositions The book's four main themes are the colonial mindset of the exhibiting of cultures and their religions the effect of evolutionary theory on the defining of American religious and social hierarchies the role of the expositions in popularizing the theory of social evolution and the denigration of primitive peoples and their religions through comparative display The text is as much cultural studies as religious studies and will appeal to those interested in American societal and intellectual trends of this period Annotation copyrighted by Book News Inc Portland OR

Easternization of the West Colin Campbell, 2015-11-17 In this provocative and groundbreaking book Colin Campbell shows that the civilization of the West is undergoing a revolutionary process of change one in which features that have characterized the West for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the East Moving far beyond popular trends Campbell assembles a powerful range of evidence to show how Easternization has been building throughout the last century especially since the 1960s Campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers This highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences
