The Origin And Distribution Of Tell El Yahudiyeh Ware Studies In Mediterranean Archaeology:

The Origin and Distribution of Tell El Yahudiyeh Ware Maureen F. Kaplan, 1980 **The Origin and Distribution of Tell El Yahudiyeh Ware**, 1980 **Tell el-Yahudiyeh Ware in the Northern Levant** Samar Shammas, 2023-10-31 This volume is devoted to the discussion of Tell el Yahudiyeh Ware's repertory unearthed in the Middle Bronze Age sites of the northern Levant. These juglets initially emerged in the northern Levant in two separate regions in Syria/Palestine. These two variants developed in two lines producing the Syro-Palestinian and the Levanto-Egyptian lines. This distinction should be from now on essential in considering Tell el Yahudiyeh Ware. A significant focus is given to the collections discovered over the last decades in Damascus Oasis and southern Syria, labeled here the Syrian Tell el Yahudiyeh Ware Branch K. A large part of this Syrian corpus is introduced here for the first time. The evaluation shows that this material comprises more than half of Tell el Yahudiyeh Ware in the northern Levant and was used from the beginning of the 18th to the middle of the 16th century BCE. Moreover, light is shed onto the archaeological contexts where the vessels originally belonged. This approach enhances the perception of this ware's value and position in the material culture in the Middle Bronze Age Levant. All things considered, this book is a new addition to many decades of research that aims to understand the origin and development of one of the most challenging elements of the Middle Bronze Age pottery tradition. *Studies in Mediterranean Archaeology* Karin Niklasson, 1991 **The Phoebe A. Hearst Expedition to Deir el-Ballas** Victoria Jensen, 2025-03-24 This lavishly illustrated book presents the unpublished excavations of the Hearst Expedition 1900-1901 at Deir el-Ballas and thus makes a major contribution to the study of the material culture of the early New Kingdom. The site played a major role in the birth of the New Kingdom as a royal campaign headquarters during the wars to expel the Hyksos. For several generations afterwards, a non-elite population lived in the shadow of the abandoned palace in this provincial town. Drawing on meticulous archival research to reconstruct the tomb assemblages, this book reveals the community's funerary practices and considers the cultural memory the residents held of their town's illustrious past. *The Amorites and the Bronze Age Near East* Aaron A. Burke, 2021-01-27 In this book, Aaron A. Burke explores the evolution of Amorite identity in the Near East from ca. 2500-1500 BC. He sets the emergence of a collective identity for the Amorites, one of the most famous groups in Ancient Near Eastern history, against the backdrop of both Akkadian imperial intervention and declining environmental conditions during this period. Tracing the migration of Amorite refugees from agropastoral communities into nearby regions, he shows how mercenarism in both Mesopotamia and Egypt played a central role in the acquisition of economic and political power between 2100 and 1900 BC. Burke also examines how the establishment of Amorite kingdoms throughout the Near East relied on traditional means of legitimation and how trade, warfare, and the exchange of personnel contributed to the establishment of an Amorite *koiné*. Offering a fresh approach to identity at different levels of social hierarchy over time and space, this volume contributes to broader questions related to identity for other ancient societies. *New Directions in*

Egypt in the Eastern Mediterranean During the Old Kingdom Karin Sowada, 2009 This study presents a revised view of Egyptian foreign relations in the eastern Mediterranean during the Old Kingdom 3rd 6th Dynasties based on an extensive analysis of old and new archaeological data and its relationship to the well known textual sources The material demonstrates that while Egypt's most important relationships were with Byblos and the Lebanese coast generally it was an active participant in the geo political and economic affairs of the Levant throughout much of the third millennium BCE The archaeological data shows that the foundation of these relationships was established at the beginning of the Early Dynastic Period and essentially continued until the end of the 6th Dynasty with ebbs flows and

changes of geographical and political emphasis It is argued that despite the paucity of textual data the 4th Dynasty represents the apogee of Egypt's engagement in the region a time when the centralised state was at the height of its power and control of human and economic capital More broadly this study shows that Egyptian interaction in the eastern Mediterranean fits the pattern of state to state contact between ruling elites which was underpinned by official expeditions engaged in gift and commodity exchange diplomatic endeavours and military incursions *Journal of Mediterranean Archaeology*, 1988
