Helena Blavatsky, Manly P. Hall, Max Heindel, 2025-04-23 The occult in the broadest sense is a category of esoteric supernatural beliefs and practices which generally fall outside the scope of religion and science encompassing phenomena involving otherworldly agency such as magic and mysticism and their varied spells It can also refer to supernatural ideas like extra sensory perception and parapsychology Contents Introduction by Manly P Hall The Secret Doctrine by Helena Blavatsky The Rosicrucian Cosmo Conception by Max Heindel The Occult Review ,1905 *The UFO Phenomenon and the Origin of Religion, Myth and The Occult* Robert Iturralde, 2024-12-09 This book establishes the connection of the Intelligence behind the UFO phenomenon and the supernatural phenomenon historical events every day events religious events Also I demonstrate that the UFO phenomenon is present in human reality with different names sometimes is called miracles and Supernatural events **The Dark History of the Occult** Paul Roland, 2011-09-01 Black magic murders satanic sex cults and demonic possession tabloid journalists jumps at any mention of the disturbing practices of the occult Is this unhealthy obsession to blame for our increasingly violent society or is the truth even darker and more disturbing This book includes detailed accounts of animal sacrifice exorcisms and the influence of Satanism in today s world from rock music and ritual murders in the USA to black magic ceremonies and other necromantic practices worldwide The Dark History of the Occult examines whether Satanic Forces are simply the emergence of the dark side of human nature or whether we really do have something to fear namely evil *Occult History* Rudolf Steiner, 1982 These lectures are concerned with spiritual forces and influences working in world history and in the karma of human beings Steiner s penetrating insights into the events and personalities history are one of his major contributions to modern times Steiner focuses here on the Babylonian and Greek cultures and the connecting threads running between individual personalities and the evolution of humanity as a whole *Spirituality and the Occult* Brian Gibbons, 2013-07-04 Spirituality and the Occult argues against the widely held view that occult spiritualities are marginal to Western culture Showing that the esoteric tradition is unfairly neglected in Western culture and that much of what we take to be modern derives at least in part from this tradition it casts a fresh intriguing and persuasive perspective on intellectual and cultural history in the West Brian Gibbons identifies the influence and continued presence of esoteric mystical movements in disciplines such as medicine science philosophy Freudian and Jungian psychology radical political movements imaginative literature **Occult Scientific Mentalities** Brian Vickers, 1984 **Encyclopedia of Occult Sciences vol.VII Alchemy And High Magic** Poincot, Maffeo, 2015-10-07 It follows from this phenomenon tested hundreds of times that every thing may carry around it an invisibly written history The same thing applies to the human being Every one of us carries around him a radiance invisible to the human eye but perceptible to the trained mind Inscribed in this radiance in the shape of pictures are the most important results of our thoughts and our actions In accordance with Tradition this radiance is termed the aura and there is an aura for every principle Thus there will be an aura of the physical body of very small extent an aura of the astral body an aura of the mind It is this last which was

recognised by religious tradition surrounding the heads of saints and divinities with halos It is thanks to this radiance of the three principles of the human being that we can explain many seemingly strange phenomena such as sudden sympathies or antipathies intuitions and so called unconscious previsions etc Clairvoyance is also produced as we have said by means of a special magnetised condenser of the astral plane termed the Magic Mirror of which our author speaks in connection with the Arsenal of Magic just as he speaks of the visions seen in coffee grounds in the chapter dealing with divinations of the second degree And I quite understand the reserve which he shews here but perhaps he ought to have dealt separately at least with the psychometry which has been tested by experiments Our author it is felt gives but a limited belief to these divinations of the second degree Yet he describes conscientiously not the hundreds of ancient methods which are nearly forgotten but those of the Kabbala such as onomancy taromancy and also the oracles the prophecies which prove that the secret influences of this radiance govern many of our states of mind Seven Essays on the Subject of Practical Occultism Ernest

Loomis,1898 *Creation in ten occult aphorisms* Helena Petrovna Blavatsky,2018-08-07 **The Astral World—Higher Occult Powers** Joel Tiffany,2021-11-05 In The Astral World Joel Tiffany writes with a vigorous and original voice on the truth and meditative power of spiritualism This book is an advanced study into clairvoyance and mediumship Joel Tiffany uses his own experience and progressed spirit to discuss matters of the soul The Occult and Biological Journal ,1900 *The Russia 's Black Sun: The Occult Roots of Eurasianism* Cristian Derosa,2025-01-02 The world lives under the siege of two great beasts on the one hand globalism proponent of an apparently secular and worldly universal religion representing the demonic lie that disguises itself as pacifism human rights and tolerance to practice cultural genocide and domination tyrannical over life and death through the transhumanist monster of total control On the other side traditions emerge gathered under the umbrella of multipolarity led by Russian Eurasianism as a congregation of universal traditions against modern materialism This last current which is the object of this work hides in the form of an apparent opposition to globalist materialism a declaration of war on the West as a civilization considered by occultists of recent centuries as the civilization of the world Logos against which proposes chaos liberation a type of awakening and openness to knowledge as an alternative to the Enlightenment mentality of modernity For this reason it opposes modernity through both traditionalism and postmodernism Both currents globalist and traditionalist consider themselves bearers of light against darkness just like European revolutionaries in the past both in the form of Protestants and Freemasons seen by themselves as symbols of a metaphysical freedom that manifests itself in different ways While globalists propose political individual and hedonistic freedom Eurasians claim to be spiritual liberators of the lights of a new awakening of traditions **The Occult Causes of Disease** E. Wolfram,1996-09 1911 Being a compendium of the teachings lain down in his Volumen Paramirum by Bombastus Von Hohenheim better know as Paracelsus Translated into English by Agnes Black in every occult circle Parcelsus has never ceased to be valued and esteemed *Occult Roots of Religious Studies* Yves Mühlematter,Helmut Zander,2021-06-08 The

historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas
