**The Origin of Modern Capitalism and Eastern Asia** Norman Jacobs, 1958      **The Origin of Modern Capitalism and Eastern Asia** Dorothy H. Cohen, 1958      The Origin of Modern Capitalism and Eastern Asia Norman JACOBS (of New York University.), 1958      **The Shorter Science and Civilisation in China: Volume 1** Joseph Needham, Colin A. Ronan, 1978 Volumes I and II of the major series China its language geography and history Chinese philosophy and scientific thought      An Austrian Perspective on the History of Economic Thought Murray Newton Rothbard,      **The Shorter Science and Civilisation in China: Volume 2** Joseph Needham, Colin A. Ronan, 1978 Volume 2 contains Volume III and a section of Volume IV Part 1 of the major series Mathematics Astronomy Meteorology Geography map making Geology related sciences Physics excluding electricity magnetism      *Science and Civilisation in China: Volume 7, The Social Background, Part 2, General Conclusions and Reflections* Joseph Needham, 2004-07-22 It would be difficult to overstate the importance of Joseph Needham's Science and Civilisation in China series For nearly fifty years Needham and his collaborators have revealed the ideals concepts and achievements of China's scientific and technological traditions from the earliest times to about 1800 through this great enterprise During his long working lifetime Needham kept in draft various essays some written with collaborators in which he set out his broad views on the Chinese social and historical context These essays edited by one of his closest collaborators Kenneth Robinson are contained in the present volume A reading of this material makes it possible to reconstruct the assumptions and problematics that underpinned and drove the Needham project throughout the nearly one half century during which he was at the helm The documents gathered here reveal the intellectual foundations of one of the greatest scholarly enterprises of the twentieth century      The Oxford Handbook of Asian Business Systems Michael A. Witt, Gordon Redding, 2014-01-30 Much of the existing literature within the varieties of capitalism VOC and comparative business systems fields of research is heavily focused on Europe Japan and the Anglo Saxon nations As a result the field has yet to produce a detailed empirical picture of the institutional structures of most Asian nations and to explore to what extent existing theory applies to the Asian context The Oxford Handbook of Asian Business Systems aims to address this imbalance by exploring the shape and consequences of institutional variations across the political economies of different societies within Asia Drawing on the deep knowledge of 32 leading experts this book presents an empirical comparative institutional analysis of 13 major Asian business systems between India and Japan To aid comparison each country chapter follows the same consistent outline Complementing the country chapters are eleven contributions examining major themes across the region in comparative perspective and linking the empirical picture to existing theory on these themes A further three chapters provide perspectives on the influence of history and institutional change The concluding chapters spell out the implications of all these chapters for scholars in the field and for business practitioners in Asia The Handbook is a major reference work for scholars researching the causes of success and failure in international business in

Asia     *Max Weber* Alan Sica, 2017-09-08 The most profound and enduring social theorist of sociology's classical period Max Weber speaks as cogently to concerns of the new century as he did to those of the past In *Max Weber and the New Century* Alan Sica demonstrated Weber's preeminent position and lasting vitality within social theory by applying his ideas to a broad range of topics of contemporary concern *Max Weber A Comprehensive Bibliography* is a companion volume that offers some 4 600 bibliographic listings of work on Weber making it the most complete guide to the literature in English and a testament to the continued vitality of Weber's thought Sica's work supersedes all previous bibliographical efforts covering the Weber literature both in the quantity and accuracy of its references and the clarity and convenience of its format In order to demonstrate the enormous variety of Weberiana in English Sica has adopted a liberal criterion for inclusion rather than a critical one choosing to mix the best with what may be more routine work Following a preface in which previous bibliographies and bibliographic problems are discussed the volume opens with a series of five specialized bibliographies The first lists Weber's works in English translation The second lists reviews of Weber's major works including those translated into English while the third covers reviews of recent books and other work on Weber The fourth section contains a selection of dissertations and theses relating to Weber or his ideas The fifth includes primary and secondary sources treating Weber on rationality and rationalization processes The last and largest section offers a comprehensive Weber bibliography of works in English This large scale endeavor attempts to identify with accuracy and completeness the entire universe of Weber scholarship in English It will be an essential scholarly tool for sociologists historians economists and students of cultural and intellectual history     **The Grand Titration** Joseph Needham, 2013-11-05 First published in 1969 The historical civilization of China is with the Indian and European Semitic one of the three greatest in the world yet only relatively recently has any enquiry been begun into its achievements in science and technology Between the first and fifteenth centuries the Chinese were generally far in advance of Europe and it was not until the scientific revolution of the Renaissance that Europe drew ahead Throughout those fifteen centuries and ever since the West has been profoundly affected by the discoveries and invention emanating from China and East Asia In this series of essays and lectures Joseph Needham explores the mystery of China's early lead and Europe's later overtaking     **Modern East Asia: An Introductory History** John Miller, 2014-12-18 Written with rare mastery and a sure sense of the essential this concise general history of modern East Asia offers students and general readers an understanding of this dynamic region from a global perspective It is the ideal introductory text for college survey courses in Asian and international studies Following an introductory discussion of the regional concept the first two chapters lay the foundations Chapter 1 describes East Asia's geographical human cultural economic social and political setting as it has evolved over the past several millennia and the three major belief systems Confucianism Buddhism and Islam Chapter 2 presents a panoramic view of the region ca 1800 The chapter introduces the dramatis personae the Chinese Japanese Koreans Vietnamese Thai Burmese Indonesians Filipinos and others and describes their interactions with

each other and with Imperial China The following three chapters deal with European expansionism and East Asians responses to the civilizational challenge the stirrings of nationalism in reaction to European colonial rule and the remarkable rise of Imperial Japan Chapters 6 and 7 trace Japan s bid to lead a pan Asianist revolt against the twin threats of Western liberalism and Soviet communism and the ensuing Pacific War Chapters 8 and 9 span the cold war era from postwar U S hopes for a Pax Americana to the division of East Asia into communist and anti communist blocs The Sino Soviet split and the Sino American rapprochement of the early 1970s open the way to the East Asian miracle and a resurgence of East Asian regionalism surveyed in Chapter 10 A concluding chapter considers the prospects for continued economic dynamism and the balance of nationalism and pan Asian trends in shaping the future

*The East in the West* Jack Goody, 1996-03-21 The East in the West reassesses Western views of Asia Traditionally many European historians and theorists have seen the societies of the East as static or backward Jack Goody challenges these assumptions beginning with the notion of a special Western rationality which enabled us and not them to modernise He then turns to book keeping which several social and economic historians have seen as intrinsic to capitalism arguing that there was in fact little difference between East and West in terms of mercantile activity Other factors said to inhibit the East s development such as the family and forms of labour have also been greatly exaggerated This Eurocentrism both fails to explain the current achievements of the East and misunderstands Western history The East in the West starts to redress the balance and so marks a fundamental shift in our view of Western and Eastern history and society

The Korean Economic Developmental Path S. Lew, 2013-12-17 This book defines the Korean development as the moral economy of growth derived from a synergy between strong state and strong society and argues that Confucian cultural orientation has played a critical role in the process

**Globalization** Jan-Erik Lane, 2014-07-25 Efforts at coordination between nations are at the heart of the challenges of globalization Despite steadily growing interdependencies individual nations still have specific interests that present obstacles to globalization While some challenges inspired by the need to coordinate are viewed as inevitable by many they are less optimistic about prospects for success Jan Erik Lane argues that one should focus objectively upon the possibility of failures Lane analyzes four kinds of challenges to interdependency all of which are growing in geopolitical relevance First countries need to diminish their dependency on fossil fuel and shift to a reliable supply of energy because fossil fuels are diminishing Second environmental degradation must be addressed because it is accelerating under the strain of earth s population Lane advocates an ecological footprint approach Third a single global market economy and its complexities must be addressed as national economies are increasingly opened Finally as traditional state sovereignty weakens foreign military intervention in both international and intra state conflicts increases Governments are attempting to address these interdependencies or reply to the challenges they pose mainly through international organizations and regionalism These efforts are discussed at length In addition problems with international law are reviewed as Lane warns against the utopian hopes of global constitutionalism

Globalization also examines the potential consequences of failing to address the need for coordination in efforts to address shared global challenges      *Annual Report on Hong Kong Hong Kong*,1963      **Routledge Handbook of Southeast Asian History** Norman Owen,2014-04-23 The study of the history of Southeast Asia is still growing evolving deepening and changing as an academic field Over the past few decades historians have added nuance to traditional topics such as Islam and nationalism and created new ones such as gender globalization and the politics of memory The Routledge Handbook of Southeast Asian History looks at the major themes that have developed in the study of modern Southeast Asian history since the mid 18th century Contributions by experts in the field are clustered under three major headings Political History Economic History and Social and Cultural History and chapters challenge the boundaries between topics and regions Alongside the rise and fall of colonialism topics include conflict in Southeast Asia tropical ecology capitalism and its discontents the major religions of the region gender and ethnicity The Handbook provides a stimulating introduction to the most important themes within the subject area and is an invaluable reference work for any student and researcher on Southeast Asia and Asian and World history      *The Cambridge History of Science: Volume 4, Eighteenth-Century Science* David C. Lindberg,Roy Porter,Ronald L. Numbers,2003-03-17 The fullest and most complete survey of the development of science in the eighteenth century      *Max Weber in Asian Studies* Andreas E. Buss,2022-11-07      *A Companion to Chinese History* Michael Szonyi,2017-02-06 A Companion to Chinese History presents a collection of essays offering a comprehensive overview of the latest intellectual developments in the study of China s history from the ancient past up until the present day Covers the major trends in the study of Chinese history from antiquity to the present day Considers the latest scholarship of historians working in China and around the world Explores a variety of long range questions and themes which serves to bridge the conventional divide between China s traditional and modern eras Addresses China s connections with other nations and regions and enables non specialists to make comparisons with their own fields Features discussion of traditional topics and chronological approaches as well as newer themes such as Chinese history in relation to sexuality national identity and the environment      *New Perspectives in Political Science* ,1966
