The Orthodox Eastern Church Adrian Fortescue, 1908

The Organization of the Orthodox Eastern Churches Margaret G. Dampier, 1910

The Lesser Eastern Churches Adrian Fortescue, 2015-01-16

This is a comprehensive history that looks at some of the more obscure early churches in the east From the preface This book forms a continuation or second part of The Orthodox Eastern Church by the same author Its object is to describe the lesser separated Eastern Churches in the same way as that described the greatest Greatest and lesser by the way are only meant to qualify their size No opinion is thereby expressed as to their relative merit see p 446 There is a difference in the subject of this volume which affects its treatment These smaller Churches are much less known There is a vast literature on the Orthodox Church so that the only difficulty in writing the former book was that of selection and arrangement Moreover

Orthodox official documents and service books at least in their original form are in Greek which it is no great merit to know. Much of the matter treated here is rather of the nature of a land if not unknown at least difficult of access. There is far less information to be had about the other Eastern Churches. And their native literature is contained in many difficult tongues. So to write this book was a much more arduous task and the result may be less satisfactory. On the other hand it has the advantage of greater originality. Concerning the Orthodox I said nothing which could not be found fairly easily in European books already. Here I think I have been able in certain points to bring what will be new to anyone who has not made some study of Eastern matters and languages. Part of this is gathered from notes made by myself in their lands, interviews with prelates and clergy of these rites, observations of their services and information supplied by friends in those parts. As for literary sources I have of course read many books on Eastern Churches by modern writers. But as will be seen from my references I have compiled my own book as far as I could from original sources. It is perhaps hardly necessary to say that all my quotations are at firsthand.

The Orthodox Eastern Church (Classic Reprint) Adrian Fortescue, 2017-09-18. Excerpt from *The Orthodox Eastern Church*. Turks whom by the way it is polite to call True Believers give only to us The body about which this book treats always calls itself the Orthodox Eastern Church and in the East we call them Orthodox and they call us Catholics unless when they mean to be rude and no one thinks for a moment that either uses these names except as technical terms. About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com. This book is a reproduction of an important historical work. Forgotten Books uses state of the art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. Rome and the Eastern Churches Aidan Nichols, 2010-03-12. In the second edition of this major work Dominican theologian Aidan Nichols provides a systematic account of the origins, development and recent history, now updated, of the relations between Rome and all separated Eastern Christians. By the end of the twentieth century events in Eastern Europe, notably the conflict between the Orthodox and Uniate Churches in the Ukraine and Rumania, the tension between Rome and the Moscow patriarchate over the re-establishment of a Catholic hierarchy in the Russian Federation and the civil war in the then federal People's Republic of Yugoslavia brought attention to the fragile relations between Catholicism and Orthodoxy which once had been two parts of a single Communion. At the start of the twenty-first century in the pontificate of Benedict XVI a papal visit to Russia at the symbolic level a major step forward in the healing of memories appears at last a realistic hope. In addition the schisms separating Rome from the two lesser but no less interesting Christian families the Assyrian Nestorian and Oriental Orthodox Monophysite Churches are examined. The book also contains an account of the origins and present condition of the Eastern Catholic Churches, a deeper knowledge of which by their Western

brethren was called for at the Second Vatican Council as well as by subsequent synods and popes Providing both historical and theological explanations of these divisions this illuminating and thought provoking book chronicles the recent steps taken to mend them in the Ecumenical Movement and offers a realistic assessment of the difficulties theological and political which any reunion would experience The Orthodox Eastern Church Adrian Fortescue,1916 *The Orthodox Eastern Church ...
